GET SHARP WITH THE NEW HEXA SAW CHAIN

NEW HEXA SAW CHAIN FOR OUTSTANDING CUTTING PERFORMANCE

Hexa saw chains are ideal for professional forestry and tree maintenance. These full-chisel chains have distinctive V-shaped teeth. This patented design allows them to achieve the highest cutting performance in the entire STIHL saw chain range. The exclusively developed hexagonal file is perfectly adapted to the shape of the Hexa blade teeth so that saw chains can be sharpened easily and quickly as well as remaining sharp significantly longer than other saw chains.

FASTER AND EASIER TO SHARPEN

Thanks to the optimum fit of the Hexa blade tooth and patented Hexa file.

CUTTING PERFORMANCE IMPROVED BY UP TO 10%

Compared to the STIHL 3/8 RS saw chain.

SAW CHAIN TEETH STAY SHARP FOR LONGER

With significantly increased blade tooth sharpness achieved each time, the Hexa saw chain needs to be sharpened less often, increasing durability and lessening downtime.

NEW HEXA UPGRADE KIT

For easily retrofitting your STIHL chainsaw to the new Hexa cutting system.

EACH KIT CONTAINS:

- 2x Hexa saw chains
- 1x Hexa file (5.2 x 200mm)
- 1x Wooden handle for the Hexa file
