

# Optomega Algae Plus Liquid

## Composition

Optomega Algae Plus Liquid is composed of algae oil (*Schizochytrium sp.*). A rich source of DHA; a biologically important omega-3 fatty acid.

## Animal focus

Designed for use in all animals, Optomega Algae Plus has been developed for breeding animals and producers supplying meat, milk and eggs containing higher levels of omega-3 fatty acids.

## Main benefits

- ✓ Contains a consistent high level of DHA
- ✓ Over 50% of total fatty acids is DHA
- ✓ DHA is well documented to support fertility in all classes of livestock
- ✓ Feeding DHA can assist in elevating omega-3 levels in meat, milk and eggs
- ✓ Highly digestible energy source
- ✓ Improved energy balance helps support lactation performance and growth rates
- ✓ Higher levels of essential fatty acids may help maintain skin and coat condition
