

Stevan Gazzola uses Orego-Stim for his pigeons flying in the Meadow One Loft Race Australia

"I have been using Orego-Stim Liquid in the pigeons' water most days, at least five days a week.

I have 1,020 pigeons living together and they look great. Their droppings look good and we are having temperature's of -2 degrees overnight.

Everyone who sees the pigeons comment on how good they look, I tell them it isn't the tap water doing it. I tell flyers if you want to make a difference add Orego-Stim Liquid to their water.
