

**Sheree Faux – Sydney, Australia – “I haven’t had a soft shell egg since I started using Orego-Stim Liquid just over a month ago.”**

“I have four hens and was getting one egg a day. I started using Orego-Stim Liquid and within three weeks we were getting three eggs a day and now a month later we are getting four eggs a day. As it comes into winter other hens are reducing their laying, because of Orego-Stim Liquid our hens are increasing their laying. We are very happy and would recommend Orego-Stim Liquid.”
