

#WD-208
BUTYL TAPE

BUTYL TAPE SEALANT

Tacky Tape[®] is 100% solids, asbestos-free butyl sealant that is highly rubbery, tacky, reinforced compound designed to assure moisture and weather tight seals for mechanically fastened lap joints. Weatherdek uses Tacky-Tape as a recommended sealant for use with the Weatherdek Aluminum L-Trims.

TACKY TAPE[®]:

- Easy application with backer paper.
- Resistant to ultraviolet exposure and extreme temperature fluctuations.
- Non-staining.

APPLICATION:

- Apply to back side of mechanical fastening bar centering sealant tape over screw penetrations.
- Remove release-backing paper prior to installing trim.
- Ensure all fasteners are installed through sealant tape.

PACKAGING:

- 50 ft / roll
- 32 rolls / case

STORAGE:

- Shelf life - 18 months at or below 38°C

CAUTION:

- Refer to SDS Sheet before use.
