Wireless Bluetooth

Operation Instructions

To switch on/off and adjust the illumination color temperature:

1. Press the Power button once to turn on the illumination and activate Bluetooth® connectivity.
2. If a Bluetooth® device has been previously paired, it will automatically connect and emit a tone indicating the connection.
3. To adjust the color temperature of the illumination, press and hold the Power switch.
4. After a short period, the illumination will start changing color and cycle through the available range.
5. Once you reach the desired color temperature, simply release the switch.
6. Press the Power switch again to turn off the illumination mirror.

Note: If a Bluetooth® device is connected, the connection will be maintained, and the screen will remain illuminated. To completely turn off the mirror/screen and disconnect from a paired device, press and hold the Power

Pairing a Device:

1. Turn on the mirror by pressing the Power switch.
2. Activate Bluetooth® on your device following the device's operations manual.
3. Search for 'inyouths' and wait for the mirror to sound a tone indicating a successful pairing connection.
4. Once connected, the 'chain-link' symbol will stop flashing, indicating that the device is now connected.
5. You can now play music or other media through your Bluetooth® mirror.

Wireless Bluetooth

Un-pairing a Device

1. Turn off the mirror.
2. The connection to the Bluetooth® module will be lost.
3. When you turn on the mirror again, it will automatically reconnect to the last connected device if it is still within range.

Playback/Volume Adjustments:

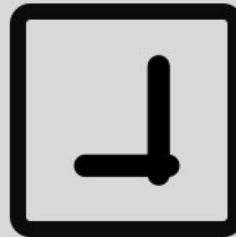

1. When a device is connected and content is playing, skip the song by pressing the UP switch.
2. Play the previous song by pressing the DOWN switch.
3. To increase the volume, press and hold the UP switch.
4. To decrease the volume, press and hold the DOWN switch.
