- 15 Hour Timer

ONE Home Collection Evaporative Cooler will keep your living space nice and refreshing. With a cool water tank and a remote, cool down in your room without ever leaving your spot.

The slim design can fit snug in a corner on a bed side or next to a couch. Using built in oscillation, this fan can disperse air evenly through out the room. Control your fan through pairing and using home voice systems. The fan is also built to last using light weight yet sturdy plastic. The LED touch display is also made to last with an auto shut off screen. Cool off during the heat. The ONE Home Smart Pedestal Fan is best used in living rooms, bedrooms, offices, or any personal spaces.
