Introduction

The luxurious Sonorous Elements Series features a range of striking and highly original Audio Visual cabinets designed to enhance any room and AV set-up. These handmade units are created using toughened safety glass and stylish wood decors to create minimalist appearance. We have even included a infra red remote repeater system so you can use all your Infra Red Remotes (up to six devices) without having to open doors. Multiple and discrete access points allow you the maximum flexibility for routing cables, yet avoid unnecessary visibility of the cable spaghetti that comes with home cinema and entertainment systems.

Features

- Top and side panels covered with tempered glass.
- Anodised aluminium edges.
- High quality flap down mechanism. (steel rope)
- Hidden infrared repeater system, remote control for components behind cabinet doors.
- Small drawer inside with push open system.
- Adjustable shelves.
- With basement.
