PelTrap NZ snap traps for rats and mice

Functionality at a competitive price

The PelTrap NZ Rat with teeth has a 6 coil spring, strong enough to break fingers! Stronger than most snap traps on the market, quick and efficient kill.

A compact version of its big brother, the PelTrap NZ Mouse with teeth is easy to use and secure and will fit in most mouse stations. It has a strong spring meant to break the neck so the mouse does not suffocate but is killed instantly.

Both the rat and mouse PelTraps are easy to use and secure and will fit in most rat stations. It has a strong spring meant to break the neck so the rats and mice do not suffocate but are killed instantly.
