# KAMI CABINETS

Solidity and practicality are themes of the Kami cabinets. Thick planks join together in a minimalist, unadorned style; generous storage spaces are framed by a clean, linear form boiled down to the essentials. A timber plinth base grounds the reassuringly chunky form. Solid oak or natural stone can be selected for the top panel.

MATERIAL : top : solid oak, marble (bianco carrara / nero perlato) or travertine  
frame : solid oak, PU finish
