

A subtle line separates the surface of the Papa cushion into two halves. On the monotone version, the difference is achieved by rotating the fabric on one half of the cushion perpendicular to the other. Simply altering the direction of the weave creates a change that reflects how each half catches the light. The two-tone version offers a more definitive contrast.

Design
Mentsen, 2017

Material
Filling: Duck feather

Colour
Mono-tone option available in 4 finishes:
