CARING FOR YOUR HANDMADE PRODUCT

Handmade from Strangers, talented and unique in their own right, using the finest of hand finished leathers and enduring canvases, our process is created and completed by hand. Each item is distinctive with slight variations in every batch, making your item special - just for you.

OUR RUGGED MATERIALS: These have gone through rigorous testing, to stand the test of time.

OUR VINTAGE LEATHER: These can withstand breezy, windy and general weather conditions. Our material will grow with you and start to show great definitions, the more you use it. If it looks more vintage... roll with it.

KEEP YOUR PRODUCT LOOKING THE BUSINESS:

- Keep clear from extreme conditions, such as direct contact with pool parties, university benders, bon fires on the beach... you get the deal.

- Just like your skin, keep direct sun exposure to suitable levels. If you want your product to age and become more vintage then please let the product sizzle... just don't call us.
- Keep the product aired and not tucked away in the dark for too long... let it breathe.
- When the heavens open, please ensure the water doesn't sit on the surface too long. Wipe it dry with a clean white cloth asap.
- Please hand wash any product that has our canvas and leather mix and let air dry. Do not put in any washing machines, dry cleaners or with Mum's weekend washes...
- Please only use the softest and most natural waxes on the leather, rub it in soft and not too much...

ENJOY YOUR PRODUCT AND THANKS FOR UNITING WITH
