

# The Savery Collection

c. 1803 British, John Savery (b. 1747)

Reprotique brings John Savery's magical landscapes to life in an eleven panel panoramic mural wallpaper. The Devon Countryside reveals stone bridges, the Lyme Kiln, and common pastimes—fishing, shooting, hiking, carriage rides and sailing. The artistry is whimsical and charming with a gently aged palette of sage greens, muted blues and soft hues—truly a surround of calm and beauty.
