

# INTEAM™

Transform Your Garage  
into a Living Space for Your Passion

# Discover the INTEAM™ Line for the layout of the garage for Car Enthusiast

➤ Unique Equipment to revolutionize the use of your private garage

➤ High-end layout of custom-made products to enhance your property

2019. Official inauguration of the INTEAM™ concept by H.S.H. Prince Albert II of Monaco at the Top Brands show.

# 3 REASONS TO CHOOSE INTEAM™ GARAGE

## 1. Usability Value

---

### Elevate Your Passion Daily

A professionally designed garage becomes a true living space for your automotive passion. With INTEAM™, you get ergonomic, excellent, and durable equipment to enhance your interaction with automobiles.

## 2. Aesthetic Value

---

### Create the Dream Setting

The INTEAM™ Line adapts to your style and desires. You choose your own design and can easily customize it. With INTEAM™ Custom and our design office, we can also create unique furniture for you.

## 3. Added Value

---

### Increase Your Property's Value

Transforming your garage creates unprecedented added value for your property. A garage makeover with INTEAM™ is an investment. The newly designed space becomes your bestselling point!

“Exceptional automobiles embody an exceptional way of life”

“In a luxury real estate, the kitchen is designed like that of a Grand Chef. We believe that the garage of a prestigious car enthusiast should be designed like that of a great driver, in both function and lifestyle.”

Sylvain MASSON  
Founder of INTEAM™

# THE ULTIMATE GARAGE EXPERIENCE, WITH 3 UNIQUE & COMPLEMENTARY SPACES

Inspired by automotive legends and designed as the ultimate driver's garage, the INTEAM™ Line harmonizes the sensory experience between your car and its setting.

## Passion & Mechanics Space

State-of-the-art equipment, inspired by top Automotive Teams, to care for your exceptional vehicle- or fleet- every day.

## Luxury & Conviviality Space

A comfortable and inviting “garage lounge” designed to immerse yourself in the excitement of race-day vibes and share experience with fellow enthusiasts.

## Design & Collection Space

A “garage gallery” designed to store, showcase, and celebrate your racing suits, trophies, and automotive collectibles.

## THE INTEAM™ EXCEPTION

First high-end garage design concept, INTEAM™ is the result of unique research and development by a team of automotive and design enthusiasts.

---

### The Designer and Manufacturer

Masson Agencement, is a wooden furniture manufacturer since 1933. The company is specialized in interior design for both private individuals and professionals, including luxury car dealerships.

---

### The Designer

Rémi Bouhaniche, French designer, created all the furniture in the INTEAM™ Line. For certain pieces, he collaborated with the artisanal sector of our region, contributing to the excellence of French luxury.

---

### The Expert Network

Professionals and collectors of prestigious cars, designers, and renowned race car drivers participated in the design of the INTEAM™ Line to validate each use and design of the furniture.

## UNIQUE INTEAM™ ADVANTAGES FOR YOUR GARAGE DESIGN

---

### Design

Timeless, minimalist, refined, and elegant, INTEAM™ furniture embodies the French art of living, applied to the world of automobiles.

---

### Modularity

Furniture crafted in the INTEAM™ workshop is modular and can be customized to fit garages of all configurations.

---

### Noble Materials

The furniture features materials typically reserved for high-end cars : foam leather, carbon fiber, automotive lacquer, fine wood veneers, and more.

---

### French Manufacturing

All furniture and accessories are made in France, primarily in the Auvergne- Rhône-Alpes region. Some pieces, like the wall seat and book display belts, are handcrafted by master artisans.

---

### Integrated Process

Creating your exceptional INTEAM™ garage follows a meticulous 7-phase process, blending cutting-edge technology with traditional French craftsmanship.

---

### Evolving Solutions

Finishes-especially the furniture tops-are customizable and can be easily updated or replaced over time. Custom products can also be added to the design.
