Congratulations on purchasing an ARK Performance coilover system! Please read and understand the installation instructions before beginning work on the installation of your new ARK Performance coilover system. If you do not fully understand the instructions, please give us a call at 909-590-1275 or email us at info@arkperformanceusa.com

We recommend that the coilover system be **installed by someone qualified for this work or by a certified mechanic** with access to the appropriate hand or power tools. It is also recommended that proper jacks and jack stands be used. By installing these ARK Performance coilovers, you indicate that you have read the installation instructions and you agree with the terms and conditions stated.

It is your responsibility to **follow the installation instructions provided** for the ARK Performance coilover system and exercise all necessary safety precautions. ARK Performance assumes no responsibility for damages occurring from improper installation, operation, maintenance, or from incompatibility with other manufacturer's products.

Important Information:

Exclusion of Certain Liability

1. The manufacturer, importer, and dealer of ARK Performance products hold no responsibility for any incidental damage such as personal injury or any other damages due to improper installation or operation of ARK Performance coilover systems.
2. ARK Performance will not warranty any damages caused by improper installation, use, and maintenance of the ARK Performance coilover systems. The warranty is limited to defects that are recognized by our technical department, this excludes items subject to normal wear. This warranty is void in the case of an accident, modification, improper use, or competition use.
3. Do not install any ARK Performance coilover systems on a vehicle model for which it was not intended for.
4. Technical specifications of ARK Performance coilover systems and related products are subject to change without notice.
5. Before removing the original suspension from your vehicle, please compare the parts that you received with the list of materials provided in the installation instructions. If anything is missing, contact ARK Performance before beginning installation.
6. The instructions for installation should serve as a guideline only, actual installation of the coilover system may not correspond with the pictures entirely.
7. The process of uninstalling the original suspension may vary depending on the existing parts on the vehicle, so please follow the original suspension manufacturer's instructions for removal.

First Operation/Maintenance

Be sure to check that the wheel lug nuts are tightened down to the proper torque specifications.

Take the vehicle for a test drive and listen for any odd clunking noises or vibrations. If there are any, go back through the installation instructions and be sure everything is properly tightened.

Be sure to take the vehicle to a professional suspension alignment shop to have your vehicle re-aligned after installing ARK Performance coilovers.
