

In our Ecotone Spring Summer Satsuma collection we have combined print and colors into a strong silhouette and we have inspired by Japanese culture, art and colorful streets. We aimed to create an airy and comfortable look with our special fabrics, a blend of natural linen and vegan silk. We tried to capture a striking silhouette with the special Satsuma patterns we applied on a silk fabric. In this collection you will also see elegant bags and hats in apple leather and canvas, which will be indispensable in the summer months.
