

# Flush

MADE WITH  
RECYCLED  
PLASTIC

- ♥ Floss is made from recycled plastic. For every 100 metres of floss, we save 4 bottles; this means less consumption of energy and water resources
- ♥ Totally derived from recycled post-consumption plastic bottles using a mechanical process that does not use chemical substances, thus creating a safer product
- ♥ Reduced plastic use for container and shipping box
- ♥ Thermo Wrap used to preserve flavour is second-life plastic
- ♥ Cutter and boxes are fully recyclable
