officemaster

discovery back

Discovery Back is available in task, management, executive, and various counter-height versions.

The Discovery Back (DB) Series has a unique look that hints at the ergonomic benefits of its backrest shape. Designed for anyone whose most important concern is working in full, user-oriented comfort, the Discovery Back's signature unblocked shoulder blades backrest shape allows a full rearward stretch, thereby encouraging an open posture and more freedom of movement for elbows during any work involving frequent side-to-side tasking (i.e., nursing stations).

Since its launch, the practical benefits of Discovery Back chairs have made them the specific go-to choices of healthcare, high tech, higher education, and other environments that place a premium on the use of seating that facilitates productivity.

design

Double-Comfort Seating™ (DCS) Technology was developed by Office Master in order to provide high-performance support and durable memory foam comfort for extended sitting. Achieved by molding a contoured layer of viscoelastic foam over Office Master's standard high-resilience foam, the sigh-producing results of a DCS cushion are a standard feature in the backrest and/or seat of most Discovery Back models. **DCS** TECHNOLOGY

options

- The Discovery Back Series offers essentially 3 different backrest sizes: low-, mid-, and high-back. DCS Technology is featured in the most popular low- and mid-back options. **DCS TECHNOLOGY**
- Office Master offers a broad selection of additional ergonomic features such as: various cylinder height options, specialized coccyx cutouts, and an adjustable lumbar support option.
- On all options, please consult with an authorized Office Master representative or current pricebook for full details regarding compatibility, pricing, or availability.

- **Optional Casters:** The casters shown here are some of Office Master's most popular options. When making a selection, please consult a current copy of the Office Master pricebook for tips on choosing the right casters for your particular flooring and use.
- **Upholstery:** The right fabric choice can make a world of difference in the way that your Discovery Back sits, feels and looks. Office Master has a broad spectrum of in-stock, Grade-in and COM options, but particularly recommends close consideration of our extra-soft and extra-stretchable patterns, ComfortKnit and Moonscapes.

DB53
Low-back Task Chair

Specifications
Overall Width 25"
Overall Height 35-43"
Back 8" & 16" w x 18"h
Seat 20"w x 17-19.5"d
Seat Height 16-21"
Warranty 12 years limited

Features
Pneumatic lift
EZ back height adjustment
Infinitely locking seat tilt
Infinitely locking back tilt
Fabric panel back
Seat Slider
DCS backrest (only)

DB57
Mid-back Task Chair

Specifications
Overall Width 27"
Overall Height 39-51"
Back 8" & 16" w x 22"h
Seat 21"w x 18-20.5"d
Seat Height 16-21"
Warranty 12 years limited

Features
Pneumatic lift
EZ back height adjustment
Infinitely locking seat tilt
Infinitely locking back tilt
Fabric panel back
Seat Slider
DCS backrest (only)

DB64
Low-back Multi-function Chair

Specifications
Overall Width 25"
Overall Height 36-42"
Back 8" & 16" w x 18h
Seat 21"w x 17.5-20"d
Seat Height 17-22"
Warranty 12 years limited

Features
Pneumatic lift
EZ back height adjustment
Infinitely locking seat tilt
Infinitely locking back tilt
Infinite forward seat tilt
Rocking tension adjustment
Fabric panel back
Seat Slider
DCS backrest (only)

DB68
Mid-back Multi-function Chair

Specifications
Overall Width 27"
Overall Height 41-48.5"
Back 8" & 16" w x 22"h
Seat 21"w x 18-20.5"d
Seat Height 18-23"
Warranty 12 years limited

Features
Pneumatic lift
EZ back height adjustment
Infinitely locking seat tilt
Infinitely locking back tilt
Infinite forward seat tilt
Rocking tension adjustment
Fabric panel back
Seat Slider
DCS backrest (only)

DB74
Mid-back Multi-function Chair

Specifications
Overall Width 25"
Overall Height 40-49"
Back 8" & 16" w x 22"h
Seat 20"w x 17-19.5"d
