

CE2

Sales Tutorial

I. CE2 Conference Executive Chair

- Offered in 2 contrasting design alternatives — pillow top vs. contemporary styling — to fit a wider range of conference rooms, executive offices, or even for simple tasking with a high-end look.
- Body weight activated mechanism means these chairs respond to a user's weight without cumbersome tension knobs, perfect for multiple users throughout the day
- Options such as polished aluminum accents and an articulating headrest allow you to add style upgrades to fit any level of boardroom.
- Tested beyond standard BIFMA with a 300 lbs. weight rating and 12-year limited warranty

Coated Materials

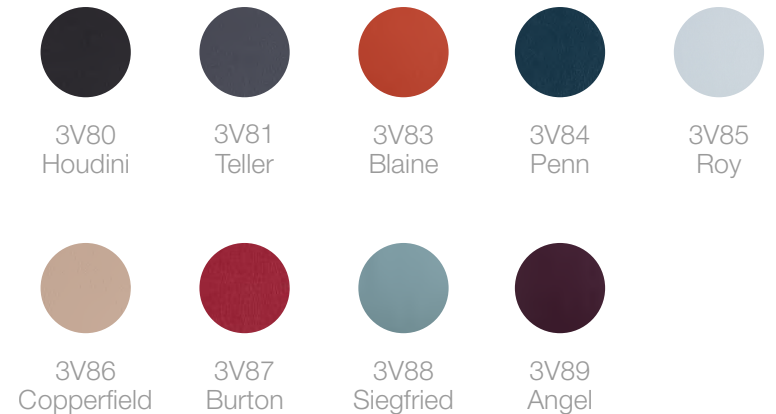

Grade 3 Cinema

Grade 3 Beau

Grade 3 Illusion

IV. Two Upholstery Styles

- The standard CE2 style comes with no Pillow top, and thus displays a clean and simple, rectilinear design in the back and seat.
- The upgrade version CE2P Pillow top style adds a layer of comfort and classic traditional styling.

V. Arm Options Beyond the Conference Room (CE2, CE2P)

- Four different arm options — from fixed height conference-style arms to gleaming but height-adjustable and pivoting executive-style arms.

AR82 (New!)

Polished Aluminum reverse cantilever arms. Matching arm pads on coated and leather upholstered chairs, and standard black leather on any fabric upholstered chairs.

AR81

Fixed Height Polished Aluminum loop top arms (with adjustable width).

KR23

Fixed width, height adjustable, forward slanting T-arms.

AR485

Polished Aluminum loop top arms. Width and height adjustable with inward pivoting motion at 15 degrees.

VI. Base Finish Package Options (CE2, CE2P)

- Modern and simple 5-star base comes in two finishes, polished aluminum or black nylon
- Multi-surface casters come standard, ready for chairs to migrate over hard or soft surfaces

Polished Aluminum

Polished Package
includes chrome cylinder
and multi-surface casters.

Black

Black Base Package
includes black cylinder and
multi-surface casters.

VII. Optional Accessories (CE2**, CE2P)

- Fully upholstered dual pivot adjustable headrest with chrome accents. Headrest upholstery matches Back & Seat upholstery by default.*

(*Note: For long-term aesthetics and cleanability, OM Seating strongly recommends choosing a dark-colored, coated material whenever possible.)

- Height adjustable soft polyurethane lumbar**

(**Note: Lumbar option only available with Pillow top (CE2P) upholstery style.)

Designed by OM Design Group

OM has been making seating since 1986. Over time, we've gathered valuable institutional knowledge about what makes good chairs great. But, we truly believe that learning never stops. So, we take great pains to actually do what many companies say they do – we listen to customers, take in feedback and opinions from end users, ergonomists, designers, dealers, architects and more; in other words, our influencers. We reject thoughtless copy-cattng, and we pride ourselves on having a diverse product development pipeline that enables us to ultimately find the right designs to bring to market. Today, OMDG is comprised of Listeners, Thinkers and Doers representing a balanced mixture of perspectives and approaches... all with the single goal of making your work life, work better!
