CROSS-ACTION CAPSULORHEXIS FORCEPS ONLINE CUSTOMIZER

Choose sizes, shapes, and materials that you prefer.

72 variants are available! You design, we create!

In any case you get modern perfectly crafted capsulorhexis forceps.

- Hinge joints allow for even distribution of pressure at three points.
- Cross-action prevents viscoelastic leakage and protects the incision from hyperextension.
- Curved shafts prevent corneal deformation.
- Sharp and delicate cystotome tips allow to make the first pinch easily.
- Tungsten carbide coated tips for better gripping of the capsule.
- Engravings (2.50/ 5.00 mm) assist in measuring the rhexis.
- Fits through a 1.50 mm incision.
