**PACK**  **SMART**

[wearepacksmart.com](http://wearepacksmart.com)

## OUR VISION

"To be the recognised leader in supplying sustainable packaging solutions to the food industry"

Pack Smart provide high quality and affordable total food packaging solutions, making it the 'one-stop shop' for food service and household consumers.

Working with our manufacturing partners, we can supply over 3,500 product lines, including disposable cups, bowls, plates, trays, containers and other tableware made of both plastic and paper, food storage bags, reusable bags, cling films, baking merchandise, aluminium foils and containers, tissue, biodegradable products and sustainable cleaning solutions.

## Why choose Pack Smart?

### High Standards

We are committed to the highest standards of quality at affordable prices and are closely supported by the most technically advanced manufacturing facilities within this field.

### High Quality

Quality is paramount, right from the incoming raw materials to the outgoing finished products ready to be shipped.

### High Ethics

The superior manufacturing facilities of our partners ensure minimal touch and human intervention to ensure hygienic, safe and excellent manufacturing practices.

All our paper products are manufactured from sustainably sourced virgin food grade paper board.

Our premium grade single wall HD plain white and printed cups are suited to the needs of many food service operators. In addition to our generic stock lines we can also offer bespoke solutions with custom print upto six colours.

In production batch printing enables us to trace the cup to the minute it was manufactured.

Sip sip hooray!

We make our environmentally responsible choices by serving beverages with your own assorted strip unwrapped paper straws. Made of a special paper, this straw is a great alternative to plastic straws that remain in the environment for hundreds of years. Whether used at a restaurant, cafe or concession stand, your patrons will be sure to appreciate your environmental consciousness and effort to reduce your carbon footprint. This straw is also versatile and can be used for both hot beverages as well as cold. Each straw also features an attractive spiraled design that is perfect for everything.

my  
BAG  
my  
style

Paper bags have become something of a fashion and status symbol in today's market, due to the amount of time and effort that brands spend designing an attractive paper bag for their goods. We aim to provide high quality paper bags that advertise the company's brand. Customers are providing a form of free advertising and endorsement. Our paper bags also offer many eco-friendly benefits to those who use them. They are both recyclable and biodegradable. In fact, it actually requires less energy for paper bags to be recycled than it does for plastic. It offers a great choice, as they pose less of a threat to the environment and wildlife.

Tea OR coffee

Pack Smart aims to provide the highest-quality recycled food service products in the packaging industry. It is our commitment to be sustainable and inspire everyone to spearhead the eco-friendly disposables initiative in order to reduce pollution and harmful waste. We work actively and aspire to create and lead a paradigm in which disposables are ultimately regenerative to the

All the products are designed to reduce your carbon footprint while providing the convenience of single-use serving-ware. Crafted from a plant-based by-product of sugarcane processing, these products help to reduce waste and deforestation by giving sturdier and more nature-friendly alternatives to paper.

## SINGLE WALL BIO CUPS (PLAIN WHITE)

Manufactured by our partners in state-of-the-art manufacturing facilities utilising modern technologies, with 25 years expertise & experience in the production of high-quality polypropylene products such as plates, trays and cups. Polypropylene is a more sustainable plastic than its peers and we use it every in almost every aspect of our life. Polypropylene products come with the smallest environmental impact among all plastic types and can be recycled in the same way. Our extensive range of thermoformed plastic products with the ability to offer bespoke private label colour designs (subject to minimum order quantities) are ideal for cash & carry and retail customers.
