

BENCHES – SAND

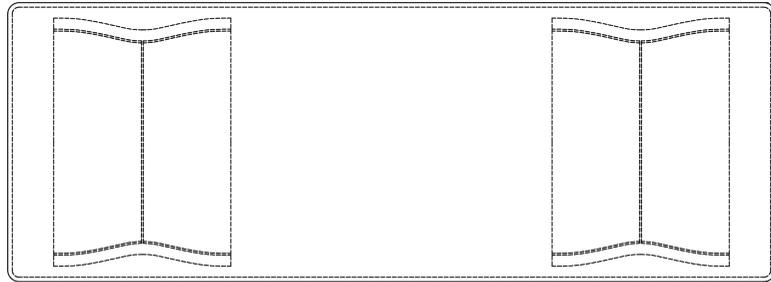

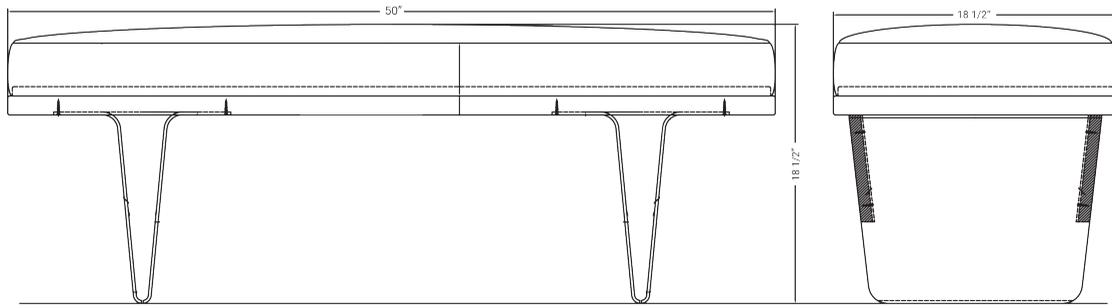

LINHERR HOLLINGSWORTH FOR DESIRON BENCH

The metal of the bench gracefully curves into a fluid, rounded, and elegant shape. A seamlessly integrated wood spacer is set into the hollow of the bent metal leg, creating a balanced harmony of wood and metal. This bench's design contrasts the heavy steel with an almost weightless appearance, seemingly floating above the floor. It's a testament to precision engineering, innovation, and craftsmanship.
