GoToob⁺

GoToob⁺, the new standard in silicone bottles.

The civilised, squeezable travel tube.

The new GoToob⁺ is made from soft, rugged silicone that's easy to squeeze and gets every last drop out; the small, medium, and large sizes are air travel approved (TSA); and all sizes are food-safe (FDA).

GoToob⁺ also offers a bunch of new features that no other soft travel bottle in the world has:

- Larger opening making it both easier to fill and clean
- The bases of all the GoToob⁺ tubes have been contoured so that they can now stand up for even easier filling
- Multi action patent-pending LoopLock™

The GoToob⁺ collar has our exclusive LoopLock™, which makes it almost impossible to accidentally open the cap, further reducing the chance of any leakage. The LoopLock™ can also be used to hang the tube from a hook or clip it to the outside of a pack. There's also a textured area on the collar where you can write in the contents with a permanent marker.

All GoToob⁺ are 100% BPA-free, PC-free, and phthalate-free. They are also covered by our lifetime warranty.

Item#	Model	Size	Colour

HG3189	GoToob+ 3 Pack Large	100ml	clear/purple/turquoise

Lock mode is 20 times more resistant to leaks and accidental opening.

Textured writing area.

Clearer size labelling.

Stand up base for easier, hands-free filling.

GoTubb™

Patented worldwide, the GoTubb™'s ingenious design opens and closes with just one hand.

For everything that you can't squeeze out of a GoToob®, there's GoTubb™!

The GoTubb™'s design allows you to open and close it with only one hand. Just squeeze the sides and the lid is released. To close, simply press back on.

The GoTubb™ works great with a number of dry contents including pills, snacks, vitamins, change, you name it. A textured labelling area resists being rubbed off and the transparent tops let you see what is inside without opening them.

The GoTubb™ is FDA-food safe, completely recyclable and 100% BPA free and PC-free.

Item#	Model	Size	Colour
HG0210	GoTubb 3-Pack Small	14cc	■ ■ ■ clear/green/blue
HG0220	GoTubb 3-Pack Medium	86cc	■ ■ ■ clear/green/blue
HG0232	GoTubb 2-Pack Large	170cc	■ ■ clear/blue

Just squeeze the sides and the lid is released.

Recessed, textured writing area.

Transparent tops for ease of viewing.

Available in three convenient sizes.

GoBites™

GoBites™, the civilised travel utensils that are equally at home in the countryside or at work.

GoBites™ Uno

Combination fork and spoon.

The GoBites™ Uno is built with smarter ends, including a spoon deep enough to slurp soup and low-curved edges to scrape container walls. The fork has tines long enough to twirl spaghetti and “splitter tines” on each edge for easy soft-food splitting. The unique U-shaped head orientation also makes Uno much more comfortable to hold compared to competitive combination tools that poke and jab you.

Item#	Model	Colour
HG0402	GoBites Uno	■ blue
HG0490-DKGRY	GoBites Uno (Bulk)	■ dark gray
HG0490-LTGRN	GoBites Uno (Bulk)	■ light green
HG0490-MDGRN	GoBites Uno (Bulk)	■ medium green
HG0490-DKBL	GoBites Uno (Bulk)	■ dark blue
HG0490-MAG	GoBites Uno (Bulk)	■ magenta
HG0490-ORG	GoBites Uno (Bulk)	■ orange
HG0490-RED	GoBites Uno (Bulk)	■ red

GoBites™ Duo

Connecting fork and spoon.

The Duo utensils are each long enough to be used separately and both are optimised for what they need to do. The tools snap together in an ultra-compact nested mode. They can also be re-connected end-to-end for eating out of rehydrated food bags, or deep food containers.

Item#	Model	Colour
HG0412	GoBites Duo	■ blue

GoBites™ Click

Compact fork and spoon.

Just like the Duo, the Click has a trick up its sleeve. While the Duo fork and spoon snap together to form an extra-long utensil, the Click utensils go in the other direction—they collapse to around half their normal size, making them the most compact members of the GoBites™ family. Thanks to a unique sliding-locking mechanism, the Click doesn't sacrifice stiffness or clean-ability. The Click utensils are made from the same ultra-durable nylon material as the rest of the GoBites™.

Item#	Model	Colour
HG0450	GoBites Click	■ grey
HG0452	GoBites Click	■ blue

GoBites™ are made from extremely durable nylon and backed by a lifetime warranty. GoBites™ are also BPA-free, PC-free and phthalate-free.

Large spoon form and low curvature edges help you slurp and scrape.

In nesting mode, Duo is fantastically compact.

Click features a unique sliding-locking mechanism.

Click is the most compact members of the GoBites™ family.

GoBites™ have received:
 Red Dot Design Award
 Fast Company Innovation
 By Design Award
 Spark Design Award
 International Design
 Excellence Award
 iF Design Award

GoBites™ Trio

Utensil set with travel case.

Trio's low-profile storage case keeps things clean during transport, and the lightweight, durable utensils will stand up to years of abuse. The Trio tools are designed with eating in mind - comfortable to hold but robust enough for serious eating. The knife blade is sharp enough to cut a piece of chicken and the fork tines are long enough to twirl spaghetti. Handy touches like an included toothpick and a metal bottle opener embedded in the knife finish off the set.

Item#	Model	Colour
HG0420	GoBites Trio	■ grey
HG0422	GoBites Trio	■ blue

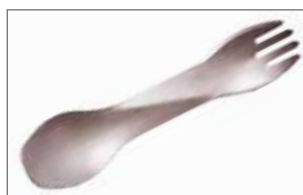

GoBites™ are made from extremely durable nylon and backed by a lifetime warranty. GoBites™ are also BPA-free, PC-free and phthalate-free.

The Trio set features a unique arrangement for super compact storage.

Trio includes a serrated knife that really cuts and an integrated bottle opener.

Light weight and incredible strength.

Titanium "splitter tines" on each fork edge for easy soft-food splitting.

GoBites Ti-Uno Titanium

Ultralight fork and spoon.

Although the GoBites™ Uno is among the strongest portable utensils on the market, there's something about a classic titanium spork that just never goes out of style. The Ti-Uno keeps the same great features of the original Uno while sporting a redesigned profile that takes advantage of the lightweight and incredible strength of titanium. The result is a ultralight do-it-all camping utensil that is so durable we probably don't even need to bother with our famous lifetime warranty. But don't worry, we will anyway.

Item#	Model	Colour
HG0440	GoBites Ti-Uno	■ titanium

capCAPTM+

The capCAPTM+ is compatible with most popular BPA-free wide-mouth and stainless steel bottles.

The capCAPTM+ is not only compatible with more bottles than the original capCAPTM, but it also has some great new features like the “CapKeeper” that holds the small cap back when you drink and rubberized grips on the small cap that make it easier to twist open.

Most wide-mouth bottles are easy to fill and clean, but the standard opening is too big to drink from without spilling. Narrow-mouth bottles are great to drink from but you can forget about putting ice cubes in them, let alone cleaning them.

capCAPTM+ offers the best of both worlds. Drink spill-free through the small spout, and then clean and fill easily with the large cap. Don't forget that the wide, rounded strap is more comfortable to hold too.

The capCAPTM+ is 100% BPA-free, polycarbonate-free, and phthalate-free, and both caps are made with FDA-approved, food-safe polypropylene (#5) plastic and silicone.

Item#	Model	Size	Colour
HG0525	CapCAP+	63mm	■ black

Splash-free spout for easy drinking.

Wide opening for cleaning or adding fruit/ice.

Rubberized grips on the small cap.

New CapKeeper holds cap in place whilst in use.

Introducing the first modular storage system designed for humans — humangear Stax™.

All humangear Stax™ containers click together with a simple, quick 180° twist for effortless organisation. Each container features its own leak-tight lid, and there's a removable ClipHandle on top. Take one, take a bunch — it's your stuff, take what you want.

humangear Stax™ small, medium, and large currently come in one colour — spectrum. Spectrum features four transparent containers, a ClipHandle, and orange, grey, blue, and green lids.

The Stax™ containers are FDA food-safe, dishwasher-safe, and microwave-safe, and it's backed by humangear's famous lifetime warranty.

Item#	Model / Size	Dimensions (L x W x H)	Colour
HG0800	Stax Small	40 x 38 x 165 mm	clear/spectrum
HG0810	Stax Medium	57 x 57 x 210 mm	clear/spectrum
HG0820	Stax Large	80 x 80 x 235 mm	clear/spectrum

Containers click together and open/close with a simple 180° twist.

Side ribs align to confirm containers are sealed.

Lids store on container bases – no lost lids.

ClipHandle securely attaches to a backpack
