PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 140 people and manufactures the world's best-known mills!

The whole process is carried out on site, whether design, technical development or production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

EXPERTISE IN FOUR KEY AREAS

METAL

Ever since the company was founded, metal working has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colours, whether natural finishes, bright colours, matt tones or lacquer.

ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

If our company ever requires an area of expertise that lies outside the company, we only work with the most exclusive partners. For example, the European glass factories that produce our decanters are experts in the traditional technique of mouth-blowing and hand-finishing glass, meaning that every product is truly unique.

PEUGEOT OUR HERITAGE

210 years of history

French-made products are inextricably woven into our DNA! It is part of our legacy.

85 %

of our products are currently made in France.

PEUGEOT OUR COMMITMENTS

French manufacture located in Quingey in the department of Doubs

Environmentally friendly paints and varnishes (water soluble)

2 million wood mills and corkscrews turned, painted and assembled per year on site

Ceramic ovenware made in Brittany

Steel mechanisms with a lifetime warranty are made in Quingey

Recycling of wood chips for the energy sector

Wood sourced from local PEFC™ certified forests (100km surrounding the factory)

In house manufacturing, from product concept to manufacturing (140 employees)

Peugeot know-how has been awarded the Entreprise du Patrimoine Vivant (EPV) label.

ECO-DESIGNED PACKAGING

Eco-designed non-laminated packaging (full-fibre compact boxes) for exemplary recyclability.

A specific mechanism for each spice,
with a limited lifetime guarantee.

Such is our commitment to quality that our products boast the best warranties.

SAVEURS D'ÉPICES collection

All Peugeot steel mechanisms come with a lifetime warranty.

Flaxseeds mechanism comes with a 5-year warranty

Warranty for mill bodies:

- Electric Mills: five years from date of purchase
- Zeli Mills: two years from date of purchase
- Manual: five years from the date of purchase

SAVEURS DE CAFÉ collection

All Peugeot coffee mechanisms come with a lifetime warranty.

COOKING

The Peugeot ceramics range comes with a 10-year warranty.

SAVEURS DE VINS collection

All Peugeot wine accessories come with a two-year warranty from the date of purchase.

The Baltaz corkscrew (metal) features a ten-year warranty.

All corkscrews come with a five-year warranty

PEUGEOT MECHANISMS

For each spice, a specific mechanism has been designed to best express its organoleptic wealth, its singularity, its imagination. This commitment to flavour is backed up with the best attention to the quality of products and performance of the mechanisms.

PEPPER

SALT

WET SEA SALT

LONG PEPPER

CHILI PEPPER

COFFEE

NUTMEG

CINNAMON

FLAX SEED

PEPPER MECHANISM

- Made of case-hardened steel for higher, more consistent output with fewer turns.
- Two-stage technology: Equipped with a helix-shaped double row of teeth that guide and hold the peppercorns for a perfect grind.
- Best performance on the market.

THE GRIND

The grind is essential for unlocking the full flavour of your pepper.

Fine grind	WILL DEVELOP POWER
Coarse grind	WILL REVEAL FLAVOUR
Medium grind	FOR BALANCE

WHICH PEPPER TO USE?

To get the best out of your Peugeot pepper grinding mechanism, we recommend you use peppercorns with a diameter of 6 mm or less.

Black, white and dry green peppercorns can be ground in Peugeot pepper mills.

The pink berries can be ground only if in a blend (max 15% pink) with one of these peppercorns. Dried coriander is also suitable for the pepper mechanism.

DRY SALT MECHANISM

The Peugeot salt mechanism is designed to grind cooking salt (rock salt). It is made of a special stainless steel that resists corrosion. Its shape is specifically adapted to transform dry salt crystals to a fine powder. To get the best out of your Peugeot salt grinding mechanism, you should use salt with a size of 4mm max.

Dry salt

Rock salt is found in the depths of the earth ; it is a fossil salt, that has accumulated over geological eras, with the evaporation of the seas. It offers high level of minerals and trace-elements.

WET SEA SALT MECHANISM

For wet sea salt, a specially designed mechanism has been created because the natural consistency and moisture content do not allow the use of an ordinary salt mill. An innovative patented system enables a high-performance grind without blockage even with very humid or compressed salt. This specific mechanism is composed of 3 stops ensuring both mechanism resistance and constant out-put, and of anti-clogging spiral which shuffles the salt in the reservoir.

Wet sea salt

The wet sea salt (as Guérande salt, Noirmoutier salt...) is characterized by a consistency and a high humidity that do not allow to grind it with a conventional salt mill. This salt is rich in magnesium and trace elements.

COFFEE MECHANISM

A long with a specific mechanism for coffee beans comes a uniform grind, fully adjustable to reveal all aromas. Choose between an extremely fine grind to prepare an espresso, or coarser grind perfect for a French press: Peugeot coffee mills let everyone enjoy coffee to their liking. These symbols excellence have shaped the Peugeot brand for producing the strongest mechanisms on the market, with a lifetime guarantee.

CHILI PEPPER MECHANISM

The chili pepper mechanism is a Peugeot exclusive product. This patented model has a pre-cutting system and a mechanism that grinds dry chili pepper. Like the pepper grinder it has a patented treatment that protects the steel from corrosion while maintaining its sharpness and wear resistance.

NUTMEG MECHANISM

Stainless-steel spring system and blade. Nutmeg is held by a strong claw with sharp teeth. Turn top to rotate nutmeg against the blade for grating. Effortless, safe on fingers.

PEPPER MILL

SALT MILL

HOW TO RECOGNISE PEPPER MILL AND SALT MILLS

ADJUSTABLE GRINDING SYSTEM

Patented precision adjustment system for Infinite grinding options, from extra fine to very coarse and anywhere in between. 6 pre-defined levels of grind for pepper and 6 pre-defined levels of grind for salt.

Classic Adjustable System

GRIND ADJUSTMENT KNOB ON MANUAL MILLS

Grinding control button on manual mills. It crowns the manual mills that are not equipped with the U>Select system (such as Tahiti).

THUMBWHEEL GRIND ADJUSTMENT ON ELECTRIC PEPPER GRINDERS

It is under the pepper grinding mechanism on electric grinders that are not equipped with the U>Select system (such as Zephir or Zeli).

MANUAL MILLS

The first Peugeot pepper mills were created in 1874. Over time, with some inspired innovations and developments in design and materials, the claws of the Lion have dealt with many different spices, and the Peugeot mill has become the gold standard in its field. Look behind the legend and discover more about this extensive range of manual mills.

TRIBUTE MILLS

This collection is the fruit of creativity and flow of ideas generated by true enthusiasts coming together. Homage is a tribute to the exceptional expertise of some prestigious brands, those that have passion for flavour and sensual enjoyment, with whom Peugeot shares the same ideas about the art de vivre.

PALACE

Palace is another replica of the Z model produced in 1874 and flawlessly combines a wooden body featuring an antique finish with its base and top entirely covered with silverplate.

NATURE COLLECTION

A resource efficiency minded collection

The Nature Collection takes environmental responsibility to the next level with its resource-saving design.

Pieces of wood that were previously discarded due to slight visual imperfections are now upcycled with a textured finish.

Nature collection showcases the intrinsic qualities of the wood. All pieces of wood that can be given a new lease of life are upcycled in the Nature Collection.

The UPCYCLING PROCESS

NATURE COLLECTION

- Upcycled beech wood sourced from French PEFC™-certified forests
- Mills crafted from upcycled bits of wood after turning and painting
- Unique textured finish through mechanical sandblasting
- 2 finishes available : Nature and Nature Black

- Each piece is singular and unique
- Solvent-free water-soluble varnish
- Mechanism with a lifetime warranty
- Mills delivered with an Organic, fair trade pepper, or a European rock salt
- No single packaging
- Each mill is unique

NATURE

The wood showcased in its most natural features.

This collection is created from wooden pieces that are discarded after turning, or painted (in natural varnish) stage. Thanks to its initial appearance and texturing, each piece becomes singular and unique.

NATURE BLACK

A unique interplay of light coming from a texturing and a colour.

This collection is designed from pieces of wood upcycled after painting in the famous chocolate finish. The sandblasting process creates a unique raised appearance which is enhanced by the application of a solvent free matte black paint. The paint and the texturing blend together, creating an interplay of light and matt and glossy reflections, and instilling this mill with its singularity.

SPECIALIST MILLS

ISEN FLAX SEED MILL

Experts in nutrition are well aware that flax seed is one of the superfoods that have so many benefits for our health. Flax seed, is one of the 10 foods that are the richest sources of omega.

To make the most of all the nutritional benefits, it's vital to grind the seeds just before eating, because their shells cannot be assimilated by the body.

- Specially created to grind flaxseed and sesame
- Easy to disassemble and to clean
- 1 Isen spoon of 5g
- Cleaning brush included
- Presented in a case

- Wood/Stainless Steel

ISEN LONG PEPPER MILL

The new Isen mill is designed specifically for grinding long pepper, very large peppercorns and a variety of dry spices. Every detail is well-thought-out; the hopper opens gently, the grind setting is precise and efficient. The Isen mechanism comes with a lifetime warranty and is removable for easy cleaning.

- Removable large-diameter mechanism
- Specially designed to grind long pepper and very large peppercorns
- Also works for some dry spices (cardamom, star anise, tonka bean)
- Adjustable grinding
- Comes with cleaning accessories
- Presented in a case

COFFEE MILLS

Coffee grinders, firmly established in the collective imagination, are right at the heart of Peugeot's historic expertise.

Time and again, our coffee grinders, whether true classics, or new designs with innovative functions, offer the exhilarating flavour of freshly-ground coffee.

KRONOS

Kronos challenges time and pays tribute to the French watchmaking industry, originated in Franche-Comté where the Peugeot adventure started, while reinventing the classic coffee grinder of our grandmothers.

The Kronos coffee mill is easy to handle, has a powerful grinding mechanism and comes with a lifetime guarantee. This superb metal piece embodies the expertise of the watchmaker's art and offers precise and ingenious grinding control.

Adjust the grind

Adjust the grind according to the coffee preparation method

- Chocolate
- Very large capacity (50g)
- Accurate and repeatable grind settings
- 43 grinding positions available (easy to adjust from fine for espresso to very coarse for cold brew)
- Presented in a case

L'ARBRE A CAFÉ

This coffee mill is the fruit of a collaboration between Peugeot, Sylvie Amar Studio, for the design, and Hippolyte Courty, roaster and founder of L'Arbre a Café.

An indispensable instrument for the barista and the coffee enthusiast alike, it provides even, precise grinding that can be repeated exactly and is easily adapted to every type of preparation. Its design makes this mill extraordinarily simple to use, yet impressively efficient.

P36706
Coffee Mill

CERAMICS

Ultimate noble material, the Peugeot ceramic guarantees smooth and homogenous just-right baking for tasty and healthy cooking. Constantly improving and a well-kept secret, the recipe of the ceramic paste (mix of clay, kaolin and feldspath) offers Peugeot ceramics significant mechanical shock resistance.

Clean and contemporary, the lines of bakeware are designed for practicality and expressing flavours.

PEUGEOT CERAMICS

With its range of glazed ceramics, Peugeot demonstrates its know-how and its expertise of flavour in the field of oven dishes for a smooth and healthful cooking.

It is in France, in the heart of Brittany, in its virtuoso ceramics workshops established for more than 80 years, that Peugeot is producing its products.

- Ceramic bakeware
- Gentle and homogeneous cooking
- High mechanical shock resistance
- Wide and striated handles, rounded corners and high edges
- Easy to clean

FOR YOU HEART SHAPED CERAMIC DISHES

Offer a passionately gourmet gift! Birthday, Mother's Day, Valentine's Day, all occasions are good to declare your love with a touch of sweetness!

- The perfect gift for any festive occasion
- A modern and generous design for birthday or celebration cakes
- Bright, intense red colour
- Easy to unmold and clean
- Dishwasher Safe
- Abrasion resistant

DECANTERS FOR MATURE RED WINES AND WHITE WINES

A mature wine is fragile. A decanter with a long, narrow neck and slightly pot-bellied base minimises the exchange of air, preserving the wine's bouquet while enhancing its colour. To reveal the subtle, fleeting aromas of a white wine, a mature wine decanter will thus be used to preserve it.
