Rite in the Rain Directory

USE WET OR DRY

most pens stop writing when wet

- ALL PENCILS
- RITE IN THE RAIN PENS
- WAX MARKERS
- CRAYONS

WHEN DRY ONLY

what you write won't wash off

- PERMANENT MARKERS
- STANDARD BALLPOINTS

WON'T WORK

water-based inks bead off sheet

- GEL PENS
- MOST HIGHLIGHTERS
- FOUNTAIN PENS
- WATER COLORS

Yes, Rite in the Rain is a recyclable paper, but unlike plain paper... it won't turn to mush when exposed to:

rain storms

heavy sweat

oil & grease

soaked work area

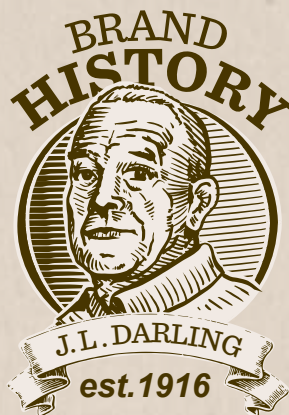

mud & grime

laundry mishap

ALL-WEATHER TOUGH!

The Rite in the Rain story began nearly a century ago in the forests of the Great Northwest. Entrepreneur, Jerry Darling, recognized the logging industry's need for a durable material that could be written on and survive in poor weather conditions. Jerry developed a special coating that created a unique moisture shield on the hand-dipped sheets of paper that he and his wife, Mary, processed at their home. From humble beginnings our first all-weather paper was born! Over the many years we've perfected and patented our environmentally responsible coating process. Still located in Tacoma, our continued mission is to provide innovative products for professionals and enthusiasts who brave the outdoors.

FIELD-FLEX & STAPLED NOTEBOOKS

"I've used *Rite in the Rain* for years. This one has held up through countless jobs and has a few more left in it. I still have a little bit of room on the back cover."

-PAUL MONTEMAYOR, CONTRACTOR/PAINTER

Paul is a big fan of *Rite in the Rain*. His current issue is a staple-bound notebook that has survived the rigors of daily duty. Every line, every margin, and both covers are scribbled full with phone numbers and measurements. If it ain't broke, right?

TOP-SPIRAL & SIDE-SPIRAL NOTEBOOKS

Hard years on the farm will instill a doctrine to bend but never break. On the old willow in the yard, the passage of time takes its toll. Scratches become scars, and scars become stories. The wind blows, the rain falls, and that creaky old tree bears it all.

You see yourself in that tree. You know that life can be a furious enemy. You endure the hits and stand resolute.

You expect the same of your equipment. Scars and stains are expected, but failure is betrayal. Through the wind and rain, your tools must perform. Your livelihood depends on it.

Like that old willow, our own story is one of endurance. Founded a century ago, Rite in the Rain Notebooks are still made with the promise that they will survive the elements.

Our paper battles wind, mud, rain, sweat, and snow. Through 100 years of arduous use around the world, our products bend but never break.

The notebook that never breaks is the only one that has earned a place in your pocket.

A woman with long brown hair in a braid, wearing a tan vest over a plaid shirt and blue jeans, is writing in a yellow notebook. She is standing in a garden with a greenhouse in the background. A blue watering can is on the ground nearby.

FABRIKOID BOUND BOOKS & JOURNALS

Rite in the Rain has a hard-earned reputation as a hard-working brand, but we also enjoy a day spent trail hiking or a night spent camping under the stars. *Rite in the Rain* Notebooks are slim and light enough to fit into any pack, and durable enough to survive even the soggiest camping trip. Imagine your joy when you flip open an old journal to find the fond memories of a camping trip among friends many years ago.

TACTICAL BOOKS & PRODUCTS

The men and women of our armed forces did not simply “become” soldiers. Whatever their assignment, they were trained for it. They were tested physically. They were pushed beyond expectations of their ability. They were honed for the job, and they earned their title through sweat and rigorous study.

Rite in the Rain Notebooks didn’t just “become” the toughest All-Weather books out there. They earned the title. They have been field-tested by members of our military around the world.

Through boot camp, dust storms, typhoons, marches, and battles, our notebooks have held fast and proudly represented the Rite in the Rain name.

A woman with long dark hair, wearing a dark jacket, is shown in profile from the side, looking towards the right. She is holding a large, open map or document on a clipboard. The background is a blurred natural landscape with trees and a stream. The text is overlaid on the right side of the image.

COPIER & LASER PAPER

It is your challenge as a topographer to convey the spectacular complexity and beauty of a natural landscape through nothing but lines and shades. You know that nature is not a subject easily simplified, as nature's mastery of subtlety is equal to its might. Over dramatic peaks and gentle depressions, your pencil lightly traces the contours of the landscape before you.

Accuracy in your craft is paramount; therefore your transit, level, compass, and pencil must be quality instruments. Your demand for precision in the office and durability in the field quickly weeds out sloppy craftsmanship.

Among your trusted tools is the *Rite in the Rain* Paper upon which you've printed maps and written notes for years. Through exposure to rain in the field and years in storage, your meticulously-crafted maps endure in their original condition.
