KINESIOLOGY TAPING GUIDE

Applying the same technology and innovation to Sports Medical as we have to Performance Sports Accessories, was a natural transition and has been most successful over the past twelve years. Initially we distributed leading sports medical brands from the UK, Europe and the USA. Having realised that the only way to ensure the product we sell is exactly what our European and UK sports participants and consumers need, we decided in 2011 to launch our own brand. **Ultimate Performance (or UP) Medical** was born.

The **Ultimate Performance Medical** range has been extensively expanded and is now probably the brand leader in the consumer retail market in the UK. Increasingly our tapes and supports have been taken up by professional, semi-professional and amateur sports clubs and medical professionals, and as exports advance throughout the world via distributors, the company and Ultimate Performance brand have become nationally and internationally renowned.

Within the Ultimate Performance family of sports medical products you will find **three main groups** of products: **Performance** products are made to reach a highly competitive price point, while still retaining strong functionality. **Ultimate** products have been engineered to be the best solution in the category, regardless of competitor offering. Latterly we have launched the **Advanced** range, which is largely based upon our highly technical Ultimate Compression knitted sleeves, but with targeted support straps to mimic bio-mechanical function. This is yet another step up in terms of technicality, fit, form and ultimately function. Yet we are constantly striving to take yet another step, in order to bring the best help for injury care, rehabilitation and long term prevention of recurrent injury we possibly can.

Braces and supports are arranged by body part and indexed with the **level of support** given. From elastic through to neoprene, from one-size adjustable to Ultimate, there will be a product that will help you achieve your ultimate performance.

A brief word about sustainability: We have been working hard on improving our overall sustainability profile. This includes both the materials in our products and packaging: using more recycled, more ecological or just less materials, and shipping it as little as we can – as well as minimising the conversion process and energy inputs to arrive at finished product. While we recognise our whole industry is only at the beginning of the path, we want to continue this process in our brands' evolution throughout 2022 and beyond.

- Plastic clamshells on UP medical products are being replaced with card packs – 100% recyclable and recycled where possible.
- All plastic bags eliminated where possible, or made of recycled/recyclable plastic where mandated by retail partners.

INNOVATION FROM **UP**

ULTIMATE PERFORMANCE[®]

ADVANCED

INSOLE

WITH

F3D (Foam 3mm Damper)
dissipates up to **95%** of
high frequency shockwaves

UP4569

ADVANCED INSOLE WITH F³D FOAM 3mm DAMPER

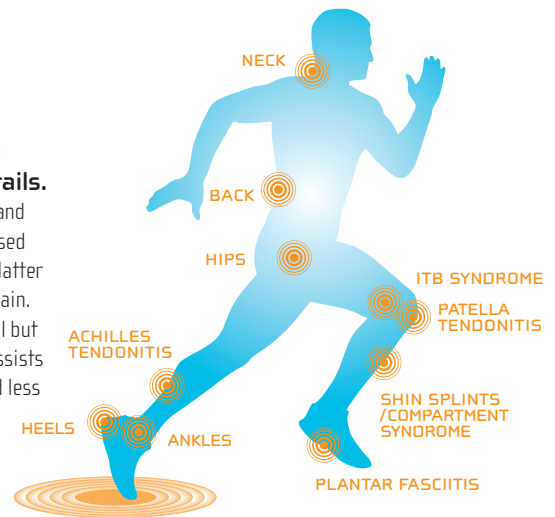

F³D, Foam 3mm Damper, is an advanced dampening foam insert, which dissipates up to 95% of the high frequency shockwaves generated with every step, especially on hard surfaces like road, pavement and hard trails.

These harmful vibrations are associated with micro-traumas of the soft tissue in the lower limbs, and are a contributory factor to pain caused by common running injuries such as plantar fasciitis, bruised heel pad, achilles tendonitis, compartment syndrome, shin splints, patella tendonitis (Osgood-Schlatter disease) and ITB syndrome. Shockwave reverberation up the spine can also lead to back and neck pain.

A PU foam core with an advanced design TPU arch brace create stability and support that assists all but most high- and low-arched foot types. Holding the foot in a more biomechanically ideal position assists both propulsion and correct alignment – making running and walking easier, more comfortable and less likely to lead to injury. Can be worn with all kinds of footwear, boots and athletic shoes.

Ideal for: all types of running and walking, in all conditions, hockey, football, rugby, basketball, racket sports etc. Use these insoles when participating in your sport, at work or play – they will help protect your joints and soft tissue with every step you take.

Support level 2

Anti-shock stability and support for runners and walkers

UP4565

PERFORMANCE GEL INSOLE

Gel cushioned protection in the heel and forefoot for runners and walkers

The Ultimate Performance Performance Gel Insole is the ideal way to improve the performance and comfort of your running and walking footwear. A contoured neutral arch design is suitable for all users. The gel inserts in the heel and forefoot target the areas where extra cushioning is needed – providing relief for aching and tired feet. **S/M, L/XL Support level 1**

UP4534

ULTIMATE GEL HEEL & ARCH 3/4 INSOLE

Gel cushioning for the heel, arch and plantar fascia.

Deeply contoured heel cup and central TPE heel gel pad help stabilise the heel and foot while the contoured arch provides cushioning and support for the tendons. Cradles the heel for added stability. Thin edge provides ultimate comfort, fit and feel. Slip-resistant design helps keep insole in place. Wicking cloth lining helps keep feet cool and dry. Can be worn with all kinds of footwear, dress shoes, boots and athletic shoes. Perfect for: extra cushioning, soft support and pain relief. Ideal for plantar fasciitis, heel spurs and bruised heels. **S/M, L/XL Support level 1**

UP4510

ULTIMATE GEL HEEL PAD

Gel cushioning for the heel.

Cradles the heel for added stability. Thin edge provides ultimate comfort, fit and feel. Slip-resistant design helps keep heel pad in place. Can be worn with all kinds of footwear, dress shoes, boots and athletic shoes. Perfect for: extra cushioning, soft support and pain relief. Ideal for heel spurs, bruised heels and plantar fasciitis. **S/M, L/XL Support level 1**

ADVANCED
 ULTIMATE COMPRESSION
KNEE SUPPORT

Advanced graduated compression provides ultimate fit and support

Lightweight, advanced flat-knit technology provides firm, even support whilst maintaining a full, natural range of movement. Steel springs provide moderate medial and lateral support whilst allowing a full range of movement. Padded open patella design – improved patella tracking and comfort. Cross-over strap system provides all-round stability and support

Recommended for: weak, stiff or aching knees.
 S/M/L/XL Support level 3

Size guide

Measure around centre of knee:

Small	12"-14"	(30-35cm)
Medium	14"-16"	(35-40cm)
Large	16"-18"	(40-45cm)
X Large	18"-20"	(45-50cm)

Cross-over strap system provides all-round stability and support

Steel springs provide stability without loss of movement

UP5192

ULTIMATE COMPRESSION HINGED KNEE SUPPORT

Wicking, breathable, comfortable and highly supportive: the ultimate hinged compression knee support

The ULTIMATE COMPRESSION hinged knee support is possibly the most comfortable on the market and yet still provides maximum support for weak and unstable knees.

The upper and lower straps improve the location and fit of the brace and fasten at the side to ensure comfort behind the knee.

The design of the bi-axial hinge ensures protection from hyper-extension without reducing mobility. The inner compression sleeve provides perfect location and comfort whilst the whole support is designed to prevent overheating and the build up of sweat, even when worn all day and pushed to the limit.

Recommended for: weak, arthritic or unstable knees during competition or all day use.

S/M/L/XL/XXL Support level 3

Size guide

Measure around centre of knee:

Small 12"-14" (30-35cm)

Medium 14"-16" (35-40cm)

Large 16"-18" (40-45cm)

X Large 18"-20" (45-50cm)

XX Large 20"-22" (50-55cm)

Choose a larger size if you have a muscular/large quad or calf.

Bi-axial hinges protect against hyper-extension

Tailored design helps prevent bunching behind the knee

UP5150
ULTIMATE
COMPRESSION
ELASTIC
KNEE SUPPORT

Graduated compression provides improved fit and support.

Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement.

Latest edge trim technology helps prevent slippage and reduces wear. Tailored design helps prevent bunching behind the knee and ensures all-day comfort.

Recommended for: weak, stiff or aching knees.

X Large	18"-20"	(45-50cm)

UP5515

HINGED KNEE BRACE

Tri-axial hinges track the knee joint. Easy pull-on design and adjustable compression.

An ultimate level hinged knee brace that provides maximum support for weak and unstable knees, as well as protection after injury. A fully tailored design improves comfort and fit behind the knee while two adjustable straps ensure a firm, customised fit with accurate location of the hinges. The design of the tri-axial hinge ensures protection from hyper-extension without reducing mobility. Patella buttress improves patella tracking. Recommended for weak, arthritic or unstable knees, during competition or all day use.

UP5460
← ULTIMATE RUNNER'S KNEE STRAP

Provides protection, relief and compression for chronic knee pain.

Three-way compression targets all around the knee to help relieve chronic knee pain. Adjustable straps ensure personalised fit and compression. Lightweight design does not compromise mobility. Upper strap and tube targets ITB and quad alignment; side compression helps with patella tracking; lower strap and tube targets patella tendon, relieving patella tendonitis. Recommended for Jumpers knee, iliotibial band syndrome, runners knee, patella tendonitis, arthritis, Osgood-Shlatters disease and quad mis-alignment.

Fits 12"-18" (30-45cm) measured around centre of knee. Support level 3

UP5450
ULTIMATE ITB STRAP →

Helps relieve pain on the outside of the knee associated with iliotibial band syndrome (ITB).

Textured neoprene reduces slipping and improves moisture management and ventilation. Adjustable strap ensures personalised fit and compression. Soft neoprene blend provides firm, even support and promotes improved healing. Fits 11"-19" (27-47cm) measured around centre of knee. Support level 2

UP5441
← ULTIMATE PATELLA STRAP

Provides compression and support, helping relieve patella tendon pain.

Perfect for relief and prevention of patella pain associated with running and jumping. A compression tube places targeted pressure on the patella tendon to provide relief. Adjustable strap ensures personalised fit and compression. Soft neoprene blend provides firm, even support and promotes improved healing. Recommended for patella tendonitis, Osgood-Shlatters disease and irritated kneecap (chondromalacia) during competition, training or all day use. Available in black, royal, red, skin, purple and pink. Fits 10"-22" (25-55cm) measured around centre of knee. Support level 2

UP5724
ADVANCED PATELLA STRAP v2.0 →

Wicking, breathable, comfortable and highly supportive.

The Advanced Patella Support is possibly the most comfortable and supportive patella strap on the market. Bi-lateral adjustment and contoured shape provides maximum support for the patella tendons – walking or running – while ensuring a full range of movement. The moisture wicking fabric prevents overheating and the build-up of sweat, even when worn all day and pushed to the limit. Adjustable for perfect fit and required compression. Fits 10"-22" (25-55cm) measured around centre of knee. Support level 3

UP5810
**ULTIMATE
 COMPRESSION
 RUN & RECOVERY
 SOCK**

Graduated compression increases performance by supporting the muscle and delaying fatigue – improving recovery, so you can perform better for longer.

The UP Ultimate Compression Run & Recovery Sock minimises muscle fatigue and soreness by reducing the build up of lactic acid, accelerating blood circulation and preventing muscle oscillation – enabling faster muscle recovery after exercise or injury.

Arch and ankle bracing offers extra support. An ultra flat toe seam and fitted heel give additional comfort.

S/M/L/XL Support level 1

Size

UK Shoe size:

Small	3-5½	(35.5-38.5)
Medium	6-8½	(39-42.5)
Large	9-11½	(43-46.5)
X Large	12-14	(47-49)

UP5733

← ADVANCED SHIN/CALF SUPPORT

Advanced wraparound design provides ultimate custom fit.

Soft neoprene blend provides firm, even support and promotes improved healing. A four way extra support strap system targets the exact location of the injury. Provides compression and support to help relieve shin splint pain, or targeted compression for calf muscle injuries. Adjustable for perfect fit.

Regular/Large Support level 3

Size guide

Measure around mid calf:

Regular 11"-16" (28-40cm)

Large 14"-19" (35-48cm)

UP5160

→ ULTIMATE COMPRESSION ELASTIC CALF SUPPORT

Provides compression and support, helping to relieve shin splint pain.

Graduated compression provides improved fit and support. Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Seam-free circular knit ensures comfortable fit and targeted compression.

S/M/L/XL Support level 2

Size guide

Measure around mid calf:

Small 12"-14" (30-35cm)

X Large 18"-20" (45-50cm)

UP5430

← ULTIMATE SHIN SPLINT/CALF SUPPORT

Provides compression and support, helping relieve shin splint pain.

Adjustable straps ensure personalised fit and compression. Soft neoprene blend provides firm, even support and promotes improved healing. Recommended for shin splint pain (compartment syndrome), in conjunction with other therapies such as cold therapy, impact shock reduction and stretching. Ideal during competition, training or all day use.

Regular 8"-16" (20-40cm) **Large** 11"-20" (27-50cm). Measure around mid calf. Support level 2

UP5520

FOOTBALL ANKLE BRACE

Full mobility - maximum support.

Specially cut to fit with the boot without restricting movement. The brace allows players to run, turn and jump without restriction, yet provides maximum support to help prevent excessive inversion or eversion. High heel cutout to work with boots/athletic footwear. Thin side panel to work with pads. Steel springs for maximum inversion/eversion support. High achilles cutout retains maximum range of movement. Recommended for football, cricket, running, racket sports and boxing for sprained, weak, stiff or aching ankles.

Available in black or white.

Heel straps lock the heel in place

Crossover straps add tension for increased support and more secure fit.

UP5225

NEOPRENE ANKLE SUPPORT WITH STRAPS

Adjustable strap suits all stages of recovery.

Soft neoprene blend provides therapeutic heat and firm, even support, promoting improved healing and ankle joint flexibility. Durable lock-stitched seams.

Reinforced adjustable elastic strap provides support during all stages of recovery. Flat edges offer all day comfort within footwear. Heel pocket provides a comfortable fit. Recommended for weak, stiff or aching ankles, mild sprains, strains and tendonitis.

Fits UK shoe sizes 6-12 [39-47] Support level 3

UP5170

ADVANCED ULTIMATE COMPRESSION ANKLE SUPPORT

Advanced graduated compression provides ultimate fit and support

Lightweight, advanced flat-knit technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Tailored cross-over strap design ensures all-day comfort. Adjustable straps provide additional support and compression. Compression zones give increased support and comfort.

Recommended for: weak, stiff or aching ankles, mild sprains, strains and tendonitis.

UP5172
 **ULTIMATE COMPRESSION ELBOW SUPPORT**

Improved support for sprained, stiff or aching elbows.

Graduated compression provides improved fit and support. Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Tailored design ensures all-day comfort.

Recommended for weak, stiff or aching elbows, mild sprains, strains and tendonitis.
 S/M/L/XL Support level 1

Compression zones give increased support and comfort

Size

Measure around centre of elbow:

Small: 7"-10" (18-25cm)

Medium: 10"-12" (25-30cm)

Large: 12"-13" (30-33cm)

X Large: 13"-15" (33-38cm)

UP5184
 **ADVANCED ULTIMATE COMPRESSION ELBOW SUPPORT +STRAP AND GEL**

Provides protection, relief and compression for tennis elbow.

Graduated compression provides improved fit and support. Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Adjustable Advanced Strap ensures a perfect fit and required compression. Latest edge trim technology helps prevent slippage and reduces wear. Recommended for weak, stiff or aching elbows, mild sprains, strains and tendonitis.

S/M/L/XL Support level 3

Gel pad provides additional tendon support and comfort

UP5765

ALL-DAY AIR TENNIS ELBOW SUPPORT

Air Cushion gives all-day relief, protection and compression.

The Air Cushion places targeted but comfortable pressure on the elbow tendons and muscles to provide relief, right where you need it. Soft neoprene blend provides firm, even support and promotes improved healing. Recommended for: tennis or golfer's elbow (epicondylitis), tendonitis and swelling. Suitable for competition or all day use. Support level 2

Adjustable strap for personalised fit and compression.

Spare Air Cushion included

UP5371

ULTIMATE TENNIS ELBOW SUPPORT

Provides protection, relief and compression for tennis elbow.

Compression tube places targeted pressure on elbow tendons and muscles to provide relief. Adjustable strap ensures personalised fit and compression. Soft neoprene blend provides firm, even support and promotes improved healing. Recommended for tennis or golfer's elbow (epicondylitis), tendonitis and swelling; during competition or all day use. Available in black, royal, red, purple and pink. Support level 2

UP5330
ULTIMATE ELBOW SUPPORT

Adjustable for perfect fit and compression.

Soft neoprene blend provides firm, even support and promotes improved healing and elbow joint flexibility. Adjustable straps ensure correct fit and minimal bunching or slipping. Recommended for weak, stiff or aching elbows, mild sprains, strains and tendonitis.

Support level 2

UP5130
ELASTIC ELBOW SUPPORT

Comfortable support for sprained, stiff or aching elbows.

Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Tailored design ensures all-day comfort. Recommended for weak, stiff or aching elbows, mild sprains, strains and tendonitis.

S/M/L/XL Support level 1

Size guide

Measure around centre of elbow:

Small	7"-10"	(18-25cm)
Medium	10"-12"	(25-30cm)
Large	12"-13"	(30-33cm)
X Large	13"-15"	(33-38cm)

ADVANCED

UP5177

ADVANCED ULTIMATE COMPRESSION WRIST SUPPORT+STRAP

Compression, support and protection for stiff or aching wrists.

Wraparound design offers the ultimate custom fit, with graduated compression for improved support. Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Adjustable Advanced Strap ensures a perfect fit and required compression. Recommended for stiff or weak wrists. Suitable during pre-competition warm-up or all day use.

S/M/L/XL Support level 2

Size guide

Measure around wrist:

Small 5¼"–6" (13–15cm)

Medium 6"–6¾" (15–17cm)

Large 6¾"–7½" (17–19cm)

X Large 7½"–8¼" (19–21cm)

ADVANCED

UP5186

ADVANCED ULTIMATE COMPRESSION WRIST BRACE WITH SPLINT

Provides compression, protection and can help stabilise the wrist with three levels of support.

Wraparound design offers the ultimate custom fit. Lightweight, advanced knitting technology provides firm, even support whilst maintaining a full, natural range of movement. Latest edge trim technology helps prevent slippage and reduces wear. Advanced removable velcro strap system targets the injured area providing superior compression and support. Rigid aluminium stay to hold the wrist in a neutral position. Reversible to fit either hand and adjustable for perfect fit and required compression. Soft latex-free belt provides firm, even support.

Offers three levels of support:

sleeve alone, sleeve with wrist wrap

or sleeve, wrist wrap and splint.

Recommended for:

weak, stiff or aching wrists.

S/M/L/XL Support level 3

UP5366
ULTIMATE CARPAL TUNNEL WRIST BRACE

Support for carpal tunnel syndrome, stiff, weak or aching wrists.

Rigid aluminium stay to hold the wrist in a neutral position. Reversible to fit either hand. Soft neoprene blend provides firm, even support and promotes improved healing. Adjustable for perfect fit and required compression. Recommended for carpal tunnel syndrome, sprained, stiff or weak wrists. Suitable for all day use. Support level 2

UP5369
ULTIMATE THUMB STABILISER

Adjustable, comfortable and highly supportive.

Possibly the most comfortable and supportive thumb brace on the market which permits use of the fingers for everyday comfort. Neoprene keeps the damaged thumb joint warm. Dual splints, gentle yet firm, ensure the lower thumb joint is immobilised for comfort and speedy healing of sprained thumbs. Adjustable for perfect fit and required compression. Recommended for: injured, swollen or arthritic thumbs. Support level 3

UP5360
ULTIMATE WRIST SUPPORT

Secure adjustable support for stiff, weak or aching wrists.

Soft neoprene blend provides firm, even support and promotes improved healing. Ensures a full range of movement. Recommended for sprained, stiff or weak wrists. Suitable for use during competition or all day use. Support level 2

UP5365
ULTIMATE WRIST WRAP

Support and warmth for stiff or aching wrists.

Soft neoprene blend provides firm, even support and therapeutic heat, and promotes improved healing. Wrap-around design provides a custom fit. Adjustable for perfect fit and required compression. Ensures a full range of movement. Recommended for sprained, stiff or weak wrists. Suitable for all day use. Support level 2

UP5743

ADVANCED SHOULDER SUPPORT

Stability and comfort for arthritis, tendonitis and previously dislocated shoulders

Lower chest-wrap strap provides a wide range of fit and ensures correct position on shoulder. Chest-wrap strap retention loop ensures proper location of the strap during wear. Anatomically designed for left and right shoulder use. Multi-position cross-brace compression support system. Extra-long location points provide a wide range of adjustment and secure fitting even during play. An arm retainer loop provides upper arm location and isolation for increased comfort over a sling; perfect for sleeping. Wicking mesh expansion zone provides tailored fit and comfort.

S/M/L/XL Support level 3

Size guide

Measure under arm pit and over shoulder:

Small	11"-13"	(28-33cm)
Medium	13"-14"	(33-35cm)
Large	14"-15"	(35-38cm)
X Large	15"-17"	(38-42cm)

UP5235

NEOPRENE SHOULDER SUPPORT

Stability and warmth for arthritis, tendonitis and previously dislocated shoulders.

Soft neoprene blend provides firm, even support and promotes improved healing and shoulder joint flexibility. Durable lock-stitched seams. Anatomically designed brace for optimal function.

Recommended for rotator cuff tendonitis and shoulder instability.

S/M/L/XL Support level 2

Size guide

Measure under arm pit and over shoulder:

Small	11"-13"	(28-33cm)
Medium	13"-14"	(33-35cm)
Large	14"-15"	(35-38cm)
X Large	15"-17"	(38-42cm)
XX Large	17"-18"	(42-45cm)

UP5746

ADVANCED BACK SUPPORT WITH ADJUSTABLE TENSION

Advanced wraparound design provides ultimate custom fit.

Soft latex-free belt provides firm, even support. Advanced 4-way lace tension system targets the injured area providing superior compression and support, helping relieve back pain. Adjustable for perfect fit.

5-M/L-XL Support level 3

Size guide

Measure around waist:

S-M 24" - 33" (61-84cm)

L-XL 33" - 42" (84-106cm)

XXL 42" - 50" (106-127cm)

← ULTIMATE BACK SUPPORT

Lumbar support and warmth to help relieve back pain.

Soft neoprene blend, elastic straps and eight supportive steel springs encased in a comfortable pad provide firm, even support. Tailored cut for all-day comfort for both men and women. Adjustable straps ensure correct fit and minimal bunching or slipping. Recommended for sciatica, muscle spasms, sacroiliac pain and general back pain. Fits waist 28"-40" (70-102cm). Support level 3

Size guide

Measure around waist:

Regular 28" - 40" (70-102cm)

XL 40" - 50" (102-128cm)

UP5252

NEOPRENE BACK SUPPORT →

Soft neoprene provides therapeutic heat and protection.

Provides adjustable light support and compression to the lower back region, which can help relieve lower back pressure and sciatica. Excellent back support from 1/8" thick neoprene with double knit nylon lamination.

Low profile – may be worn undetected under everyday clothing. Suitable for wear during sporting activities. 5-M/L-XL Support level 2

Size guide

Measure around waist:

S-M 24" - 33" (61-84cm)

L-XL 33" - 43" (84-109cm)

UP5744
ADVANCED THIGH SUPPORT

Advanced support with warmth for groin, hamstrings or quads
 Soft neoprene blend provides firm, even support and promotes improved healing. Advanced removable six way velcro strap system targets the exact location of the injured area, providing superior compression and support. Adjustable for perfect fit. Recommended for injuries to groin, hamstrings or quads. Suitable for use during pre-competition warm-up or all day use. Support level 3

UP5340
ULTIMATE THIGH SUPPORT

Support and warmth for groin, hamstrings or quads.
 Soft neoprene blend provides therapeutic heat and firm, even support, and promotes improved healing. Adjustable for perfect fit and required compression. Recommended for injuries to groin, hamstrings or quads. Suitable for use during pre-competition warm-up or all day use. Support level 2

UP5610
PERFORMANCE ATHLETIC SUPPORT

Comfortable, breathable support.
 3" waistband retains its shape even after repeated washings for superb comfort. Tailored pre-shrunk knitted mesh pouch and elastic leg straps for great fit and support. S/M/L/XL Support level 1

Size guide
 Measure around waist:

Small	26"-32"	[66-82cm]
Medium	32"-38"	[82-96cm]
Large	38"-44"	[96-110cm]
X Large	44"-50"	[110-128cm]

ULTIMATE BLISTER PLASTERS

Quick relief and faster healing of blisters.

UP Ultimate Blister Plasters give quick relief of pain, cushion against rubbing, promote faster healing and stay in place for longer. They are individually wrapped, so easier to carry when you're on the move.

UP3151 Pack of 5 in mixed sizes:

3 medium (44mm x 69mm) / 2 small (20mm x 60mm)

UP3152 Pack of 6 small (20mm x 60mm)

UP3155 Pack of 5 medium (44mm x 69mm)

CLASS 1
MEDICAL DEVICE

UP3151

UP3155

UP3152

← UP3010 TOE PROTECTORS

Surround and cushion the toe, alleviating the pain caused by corns and blisters.

Help prevent blisters from friction between toes, also help to reduce rubbing caused by footwear. Less risk of toenail loss. Made from a high-grade soft silicon which will stretch to fit any size toe.

CLASS 1
MEDICAL DEVICE

UP3038

ULTIMATE MASSAGE THERAPY ROLLER

Get relief from muscular pain, reduce muscle trigger points and improve circulation.

The UP Ultimate Massage Therapy Roller delivers deep-penetrating, pain-relieving myofascial massage: the specially designed contours target difficult to reach places, while you use your body weight to choose how much pressure to apply.

Attack sore trigger points, aches and pains all over your body with pinpoint accuracy.

Use before workouts to release muscle toxins and enable you to train harder. Accelerate recovery post-workout: soothe aching muscles, roll out niggles and speed up injury rehab. Improve core strength, enhance stability, encourage better posture and restore muscle flexibility.

Works on quads, hamstrings, ITB, calves, hips, lower/upper back, neck, deltoids and shoulders.

UP3040

PERFORMANCE FOAM ROLLER

Soothe aching muscles, improve flexibility and core strength.

A hard-wearing solid foam roller for myofascial massage: use your body weight to choose how much pressure to apply. Works on quads, hamstrings, ITB, calves, hips, lower/upper back, neck, deltoids and shoulders. Good for warm-ups, to relax muscles after sports or as a training aid for fitness exercises at home.

UP3032

PERFORMANCE GYM BALL WITH PUMP

Get your whole body in shape with the burst-resistant Performance Gym Ball from UP.

Tightens abdominals. Strengthens arms and back. Tones legs. Stretches upper and lower body. Maximises workout. Cushions your body. Targets all the major muscle groups, including glutes, obliques, abs and quads. The Performance Gym Ball supports and cushions your body, and maximises your workout to help you achieve a firmer, fitter and more defined lower body and torso. Balancing on the ball provides resistance for progressive results. Will support a maximum weight of 123kg/270lb. Available in 55, 65 & 75cm diameter sizes.

UP3036

PERFORMANCE MASSAGE BALL

Reduce pain and relieve tension in muscles, ligaments and tendons.

Pack of two: the FIRM (blue) ball gives a gentle massage to loosen tight muscles. Use the SOLID (black) ball for a deeper massage to work on stubborn knots. Use to reduce pain and relieve tension in muscles, ligaments and tendons. Increases flexibility and improves posture. You control the depth of massage with applied pressure for relief of muscle soreness in lower/upper back, neck, legs, hips and feet. Ideal to help relieve the symptoms of plantar fasciitis – use your body weight to control the pressure. Help speed recovery in muscles after exercise.

KINESIOLOGY TAPE

A rehabilitative taping technique applied over muscles to reduce pain and inflammation, relax overused tired muscles and support muscles in movement.

Kinesiology taping is designed to improve the body's natural healing process by helping to increase natural blood flow around the muscle. It is non-restrictive, allowing for a full range of motion; the wave pattern adhesive backing moves with the skin and muscles.

UP Kinesiology Tape is available as 50mm x 5m rolls in a range of colours, either in continuous form or pre-cut into 250mm sections.

REUSABLE COLD/HOT PACK

For both cold and hot therapy relief.

Two colour-coded soft nylon packs, suitable for both cold and hot therapies, retain heat or coldness for at least one hour. Easy to apply wherever needed.

For cold, place pack in a freezer for at least 10 minutes before use. For heat, place pack in hot water (maximum 80°C) for at least 10 minutes, or microwave at low power for 30 seconds. Recommended for minor sports injuries, bruises, muscle aches and sprains, and headaches.

Hold in place with UP4412/4418 wraps (below) or UP5690 reusable elastic bandage (available separately – see page 20).

UP4412

MEDIUM COLD/HOT PACK

Provides hands-free compression for a cold or hot pack.

Reusable and flexible, the wrap comes with two UP4405 cold/hot therapy packs included (see opposite). Insert a pack in the mesh pocket on the wrap then apply where needed, securing in place with the upper and lower loops. Makes cold/hot therapy simple, as the wrap holds the pack securely in place. Suitable for elbows, ankles etc.

UP4418

LARGE COLD/HOT PACK

As above, but double mesh pocket holds two packs (included). Suitable for knees, thighs etc.

UP4461
ICE BAG 

Fill with ice to apply cold therapy relief. Use again and again.

Re-usable 9" bag with wide screw-top opening holds ice cubes, crushed ice or cold water. Easy to apply to wherever it is needed. Recommended for: cold therapy in treating minor grazes, bruises, muscle aches and sprains, and headaches.

UP4466
COLD GEL 

Cooling relief for sports injuries.

UP Cold Gel may be used during and after physical exercise. It is designed for the efficient relief of joint and muscular pain, and to aid in recovery from injury. It has a soothing effect and helps reduce swelling. Apply as and when needed. Rub well into the affected area for instant cold relief. 100ml tube.

UP4451
EXTRA STRONG SPORT BALM 

Warming therapy for sore muscles and joints.

A combination of herbal ingredients and carefully blended natural oils, UP Sport Balm is easy to apply and offers fast, effective relief from muscle and joint pain. 25ml jars.

UP4464
HEAT RUB 

Balm for warming pain relief.

UP Heat Rub eases pain from sore muscles, bruises, minor aches, sprains and strains. 100ml tube.

UP4493

ULTIMATE NASAL PLUG

Stop nosebleeds quickly and effectively.

Soft PVA sponge plugs compressed and vacuum packed. When inserted into bleeding nostrils they absorb blood and expand, applying pressure to stop blood flow and assist the clotting process. Latex free. Lint free.

Box of ten plugs in individual sterile packs.

Sizes S/M and L/XL.

UP4460

GRIP POWDER

Adhesive powder helps keep hands dry and improves your grip.

Useful for tennis, squash, badminton, basketball, golf, netball, gymnastics, bowls... any activity that requires improved grip. Also suitable for handles of sports equipment. Non-tack.

50g bottle.

UP4478

SKIN SHIELD

A blister-preventing roll-on barrier between the skin and shoes, equipment, pads, etc.

UP Skin Shield is waterproof, non-staining, non-toxic, grease-free and contains no animal products.

Apply directly to the skin on any areas that will be exposed to rubbing, prior to activity. When running, apply to heel and ball of foot.

45ml roll-on.
