FIT NOTES

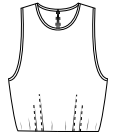

- The Joan bodice is designed to be worn with a slight blouson and some ease around the bust.
- As this garment has an easy-fit elasticated waist and full A-line skirt, the most important measurement to ensure you choose the right size is your bust.
- A comprehensive Size Guide & Measuring Guide is available to view online.
- If you are in between sizes, we would recommend going up a size - this is a light & fluid fabric so will still drape beautifully, & if you have a short torso, the bodice can be shortened by your alterations expert if needed.
