Mama!!!  
I am working  
very hard.

you need to come  
first in the class.

Dont do  
this!!!

**Encourage them to put their heart into the work**

I want to come first

But why do you want to come first?

Ask the “why” behind their wish

Because I want to  
be the best!!!

And what if you don't  
come first?

**Propose the opposite scenario of their wish**

Ummm! I didn't think about that

Then think now

?

**Make them think about all the possibilities**

**We don't always win and it's okay if someone else comes first. All you can do is give your best!**
