

Fur Oil

This light weight swabbing oil is a blend of natural and synthetic oils and polymers. It is recommended for use on small fur bearing mammals such as beaver, rabbit, fox, racoon, coyote, wolf, and other thin-skinned mammals.

It permanently fixes to the leather preventing wash out and oil migration yet allows the skin to be easily rehydrated, making it a superb oil for taxidermy tanning.

Directions and Recommended use:

To avoid eye and skin irritation, splash proof goggles and rubber gloves should be worn. For best results, the oil and skin should both be at room temperature, 65°F or above, when applying.

Fur Oil can be used on skins tanned with any type of tanning agent. Once the tanning process is complete, drain the skin until it is slightly damp. Apply the oil into the center of the flesh side and wearing rubber gloves, rub into all areas of the skin.

Note: If the skin is too wet, the oil will be diluted, if it is too dry, it won't penetrate.

After the oil has completely penetrated, fold the skin flesh to flesh and let it sit overnight. The next day, open the skin and hang it to dry. As the skin is drying, stretch and work it to break the fibers and keep it soft. Once semi-dry, the skin can also be drummed in sawdust.

Wet Tan Options:

After the skin has been oiled, folded up overnight, then opened and dried for several days, it can be rehydrated and mounted. The benefit of drying the skin first and then rehydrating it is to clean any excess oil from the fur. If the rehydrated skin is not mounted right away, roll it up hair side out, place in a heavy plastic bag and freeze for future mounting.

First Aid: Do not get in eyes, on skin or on clothing.

Causes eye irritation and may irritate skin causing dryness. *If in Eyes:* Rinse with water for several minutes. Remove contact lenses if present and easy to do. *If on Skin and Clothing:* Wash skin with soap and water. Remove and wash contaminated clothing. If skin or eye irritation persists, get medical attention. Store product closed in original container in a cool, dry area. **Keep out of the reach of children.**
