DIGI-PRINT: What is it?

Bauer elite pads utilize “Digitally Printed” graphics. Digital printing allows a digital-based image to be printed directly to the surface material of our pads and gloves.

It is then coated to protect the image so it will not fade/deteriorate over time. Now that we are opening this technology up for custom design - it means virtually limitless capabilities with no added weight or impact to pad performance or durability.

FLOW CHART

1. Creates design brief using the sketch sheet then submits it to the approved retailer
2. Approves design mock-up and updates retailer
3. Receives design brief from goalie and coordinates with Bauer to create design mock-up
4. Updates Bauer Creative Team that design has been approved by goalie and pads in order for production
5. Design by designer based on approved mock-up and preps files for manufacturing
6. Receive design mock-up and sends back to approved retailer for goalie feedback
7. Factory receives production artwork from Bauer designer and completes production within 12 weeks
8. Customer Service coordinates with retailer for additional feedback and delivery
