DESCRIPTION

Lyon Béton and designer Bertrand Jayr have teamed up once more to bring you the multi-use table Strut. A hybrid of a gueridon and a coffee table, Strut features a glass tabletop mounted to a concrete pedestal, creating a stage for showstopping decorative items and other objets d'art. The pedestal's fluting brings added texture to the concrete. Let it catch the light and cast shadows.

DESIGNER

“Between art and design, there is only one step.”
According to Bertrand Jayr, there is a transversality linking these disciplines that are both distinct and related. It is precisely by transgressing its own limits that Art constantly redefines itself. This is how this artist and designer from Lyon considers these two practices simultaneously. An innovative and meaningful design, reconciling creativity and use.
