

ATOMIC CEILING | SUSPENSION

Atomic ceiling lamp is inspired by the molecular composition of the atom, thus representing a new found interpretation of the mid-century modern era. With a set of spotlights all arranged much similar to molecular forms, this modern ceiling light comes to redefine what mid-century lighting is all about. Handmade in brass and steel by Portuguese artisans, Atomic ceiling light boasts an exquisite gold-plated finish on the body, while the shades are lacquered a glossy black on the outside and a gold powder paint on the inside. It can be used as a suspension lamp in a modern entryway, and it also works beautifully as a bedroom ceiling lamp, especially in kids' bedrooms.
