

**canopy** system

# Modularity

Each canopy is a single metal unit, which can be combined in numerous combinations to create a wide variety of arrangements.

**Loci design spanning across three rectangular canopies**

# Scalability

Standard canopies aren't limited to large spaces. Single or double installations can accentuate any space.

**Loci with single or double tiled rectangular canopies**

**Tiled installations with pendants from our standard product line**

# Installation

Canopies are constructed from steel with a smooth black powder-coated finish. Custom canopy colors are available upon request.

The canopies are designed to be installed easily into any ceiling. They can be directly flush-mounted to the ceiling or suspended by aircraft cable.

## Circular

36 x 36 x 2.6 (in)  
91 x 91 x 6.6 (cm)

## Rectangular

23.2 x 46.5 x 2.6 (in)  
59 x 118 x 6.6 (cm)

# loci

Loci installation at Skyview Lounge, Seattle, WA

Loci, which in Latin means 'centralized sources of power,' refers to the series' innovative method of achieving hundreds or thousands of singular points of light in an installation. Rather than using many individual bulbs, which would consume unnecessary energy and require frequent maintenance, Loci installations are powered by only a small handful of ultra-bright, energy-efficient LEDs.

## Configurations

Each sculptural lighting fixture is based on a customizable system of glowing pixels. Each frosted pendant is lit from within, using the light-carrying qualities of fiber optic cable. Each installation is illuminated from a single illuminator hidden above the solid canopy, saving energy while maintaining brightness. Even when not illuminated, the formation catches the light and creates a dynamic focal point.

### Ring

Single circular canopy  
80 candle pendants  
1m drop

### Spiral Ring

Single circular canopy  
80 candle pendants  
3m drop

### Mobius

Two tiled rectangular canopies  
118 cube pendants  
2m drop

### Rain

Single rectangular canopy  
75 candle pendants  
2m drop

### Wave

Three tiled rectangular canopies  
120 cube pendants  
2m drop

Loci installation at Canvas, Seattle, WA

Loci installation at Cove, Seattle, WA

Fiber optic cables flawlessly carry the light from the hidden light sources, dispersing it to the ends of the fibers. Frosted acrylic catches and diffuses the light, imparting a candlelit glow.

## Pendant types

Most Loci pendants are made from frosted acrylic. This allows the light to be visibly dispersed from the fiber optic cable. Custom pendant designs are available as well.

**Candle Pendant**

1 x 1 x 6 (in)  
2.5 x 2.5 x 15 (cm)

**Cube Pendant**

2 x 2 x 2 (in)  
5 x 5 x 5 (cm)

**Brass Pendant**

0.75 x 0.75 x 6 (in)  
2 x 2 x 15 (cm)

## DIY or let us help

We love custom projects and would be happy to design a layout tailored specifically for your space. We will work with designers, contractors and subcontractors to help facilitate coordination and make sure technical requirements are met. Contact us about your project!

# murmurations

Murmurations are custom installations inspired by a breathtaking natural phenomenon. Flocking is considered an emergent behavior arising from simple rules that are followed by individuals without any central coordination. By creating our own simple design rules, we are able to create dynamic light installations comprising of a single layered cardboard pendant. These chandeliers are scalable from few to many pendants and can be customized to accentuate any space.

## Configurations

Murmurations installations are designed to complement any type of project. These are available as project-specific custom installations of any size using our standard Moa pendants.

### Tornado

Single circular canopy  
30 pendants  
3m drop

### Flock Small

Single rectangular canopy  
60 pendants  
2m drop

### Flock Large

Three tiled rectangular canopies  
142 pendants  
2m drop
