

## AMY | FLOOR

Amy has a vintage retro style that embodies the soul of the British artist and the 50's interior design style. With a glossy black lamp shade that bear a resemblance to Amy's legendary hair and a small gold powder paint detail that recall us of her golden earring, the brass floor light suits the most demanding mid-century modern setting. The flexible lamp shade is what makes this modern lamp, the perfect reading light for your vintage bedroom or retro home office, since it will point in any direction you need. Note that Amy floor lamp features a footswitch that is on the cord, and the brass detail on the lamp shade has the sole purpose of adding a more modern aesthetics feeling.
