

THE COMPANY

Born in Portugal, Dooq is a design company dedicated to celebrate the luxury of living. Creating designs that stimulate the senses, which conceptual approach is inspired on the unexpected meeting of opposite.

Our studio focuses on an extensive research of details together with a vast iconographic research around art and design, creating an ever-evolving language that emphasizes first of all the small singularities.

We seek to find balance in contrasting concepts, creating pieces where feminine meets masculine, small meets large, soft meets solid and past meets present allowing the new to blossom.

Sensual materials like velvet, rope, straw and glass are combined with robust materials such as copper, marble, brass and wood expressing this duality in our studio's distinctive pieces.

Applying the technological expertise of a country leader in craftsmanship in combination with the creativity of great designers, allows to create objects with an uncensored aesthetic where each piece has its own reason to exist.

Dooq is pursuing elegance with audacity and devotion, crossing the boundaries between art and design.

Elegance, tradition and superior craftsmanship combined into a perfect fusion of materials to entice you continuously.

playing games

The essential volumes of these tables play between them in an alluring game of proportion and color which results in the creation of a perfect balance and tension of material and negative space. The absence of figurative shapes allows you to look at this piece from different angles and imagine various interpretations.

malibu & dolce vita

Like a warm embrace, Malibu armchair welcomes you to stay within and relax. An elevated homage to the golden age of mid-century design and organic architecture, it radiates through its unusual proportions and strong curves with softness and fine detailing resulting in a must-have piece.

Dolce Vita console transports you to a time of greatness and opulence which we can still find very much alive in Rome. Rich materials take the form and proportion of ancient structures, connecting them to a modern functionality and purpose.

la folie

With voluptuous curves and perfect poise, La Folie exalts passion and fantasy as if you were in a burlesque show at Moulin Rouge. Let yourself be drawn by this flirtatious feeling of sensuality and a touch as smooth as silk.

souk, malibu & majestic

Created by the perfect combination of color, energy and shape, Souk mirrors reflect the influences of overwhelming and visually fascinating Souk markets in northern Africa with its vibrant fringes and earthy colors resembling typical macrame techniques. These soulful art pieces will make you travel to another time and place where your senses will surely feel aroused.

Like a warm embrace, Malibu pouf welcomes you to stay within and relax. An elevated homage to the golden age of mid-century design and organic architecture, it radiates through its unusual proportions and strong curves with softness and fine detailing resulting in a must-have piece.

Well fit for a king, Majestic makes no compromise on sleekness and elegance with its compact curves and see-through straw. With a shape inspired by Indochinese culture this piece combines luxury and eclectic spirit creating a strong fashionable impression.

metropolis & single man

Wandering through Chicago's downtown one cannot help but to go back to a time when the desire to turn life into art was paired with a lust for luxury and style. Therefore, Metropolis Sideboard was created embodying the elegance, fine craftsmanship and rich materials of Art Deco translated into a dichotomy in which opposites attract each other: soft curvy shapes combine with crisp lines to create a visually balanced object.

Setting its origin in sunny California's mid-century influence, Single Man's takes you back to a time when elegance was obtained through the use of simplicity, comfort and fine materials. Using essential geometric and organic shapes, this object creates a strong emotional connection with the user. A singular piece for a singular individual.

alma & memphis

As any admirer would experience gazing at its muse, it is impossible not to feel enchanted and almost hypnotized by the refined, sensual lines and the delightfully charming soul of Alma chair. In a piece that combines classic and modern aesthetics we can find a certain harmonic gracefulness paired with an intimate voluptuousness that can embrace you and surprisingly break the frontiers of sophistication and elegance.

Spring in Milan and the smell of coffee is in the air. While strolling through the city streets we stumble upon a hypnotizing Memphis Group exhibition which sweeps us of our feet by its over the top design and irreverence. This was the background of Memphis table's creation. A dining table designed to question the sometimes imposed "good taste" and good functional design with a disregard of typical shapes and an intentional imbalance created by the bottom half spheres which seem too small to even the solid top structure. This irreverent and stylish table is still functional but may well live on its own as an object of cult.

berlin & panorama

Like its name suggests, Berlin sideboard is inspired by Bauhaus, a wave of thought that is impossible to overlook when passing through the streets of Berlin. In a more down to earth piece, clean lines and a certain absence of excessive ornamentation result in a harmony between design and function.

Solid and concrete like in appearance, Panorama is an ode to monumental proportions an impacting visual lines impossible to overlook in a voyage amongst Eastern Europe's architectural legacy. Still, the strong lines are attenuated by softly gathered upholstery that will provide you maximum comfort.

egoista

With its name being the direct translation of "selfish" in Portuguese, this armchair revolves around its own universe. Within a refined, elegant and distinctive frame, resembling the narrow and close streets of Naples, this armchair will make you feel powerful and ruler of your space.
