*the beauty of opposites.*

DESIGN

*One can't really appreciate the day without experiencing the night. And just like dusk and dawn, most memorable things happen when two opposites walk the same edge. Edge collection takes the same path, setting up a discussion between opposites to create mesmerizing and original pieces of designer furniture.*

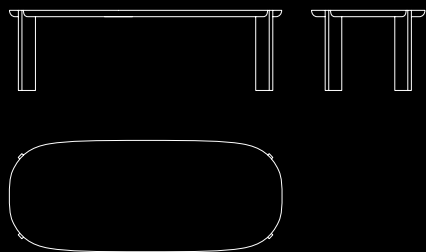

*On one side there is the humanity and softness of the curved lines of the tablets and tops, and on the other the starkness, minimalism, and architectural feel of the legs. This is further enhanced by different treatments of the massive, solid wood – from deeply sanded to smoothly polished elements on the same piece.*

*Working with 6 cm thick, famous Croatian oak is a task reserved for only the boldest and most skilful wood masters, but we thrive on challenges. Armed with knowledge, patience, and endless love of woodwork, we managed to tame the mighty wood and the results are truly special. Providing unique grain patterns as well as strength and superior durability, the sustainably sourced Croatian oak proved as the perfect choice to present the exciting story of opposites – the Edge collection.*
