## Colossus

---

Paco Camús 2017

---

Sculpture and design are concepts that can be sometimes antagonistic and sometimes symbiotic. Colossus is pure sculpture, a tree that sinks its roots in the earth and raises its arms to the sun, a knot of muscles, a frozen explosion of strength and energy, the arm of Hercules tensed and ready to strike.

But despite the weight of the sculpture, the design exists. The design provides, in this case, that minimum of rationality so that the center of gravity is balanced, that the usefulness of the piece is unquestionable and that the harmony of volumes is a balm for sight and touch.

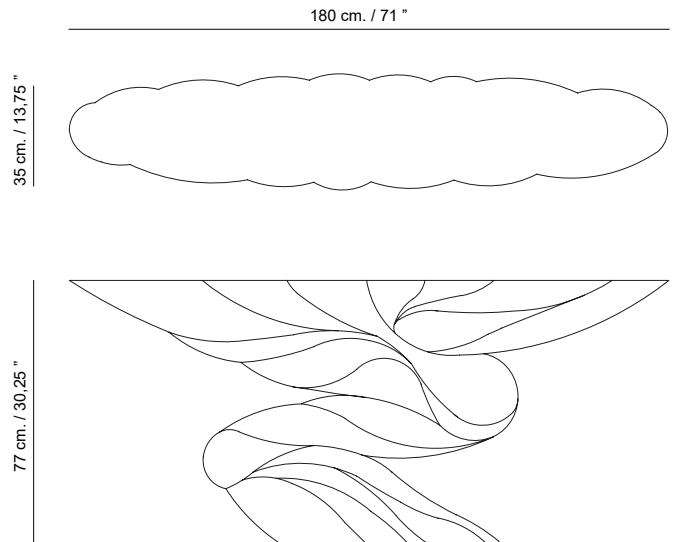

La escultura y el diseño son conceptos que pueden ser a veces antagónicos y a veces simbióticos. Colossus es pura escultura, un árbol que hunde sus raíces en la tierra y alza sus brazos al sol, un nudo de músculos, una explosión congelada de fuerza y energía, el brazo de Hércules tensado y dispuesto a golpear. Pero pese al peso de la escultura, el diseño existe. El diseño aporta, en este caso, ese mínimo de racionalidad para que el centro de gravedad este equilibrado, que la utilidad de la pieza sea incuestionable y que la armonía de volúmenes sea un bálsamo para la vista y el tacto.
