scraplights®

The larger frame-based shades take the beauty, function, and versatility of classic Scraplights to the next level. Perfect for commercial and residential settings, frame pendants feature durable dark steel frames and recycled cardboard shades in a variety of larger shapes and sizes. With multi-socket lamping assemblies and sandblasted tempered glass diffusers, frame Scraplights provide impact and ample light.

White Shades

Using custom-made entirely white corrugated cardboard and precision that has been cut on advanced machinery, Graypants has finally achieved the clean, modern glow always imagined. Each light is assembled by hand using non-toxic adhesive, and all Scraplights are treated with a non-toxic fire retardant.

Hive and Nest

This series of Scraplights is inspired by – you guessed it – wasps and bees. Their shapes are tilted, which not only creates a different light perspective, but also a new perspective on the original Scraplights shapes.

Hewn

Hewn, a linear shape that is as beautiful as it is hardworking. As a task light, Hewn will deliver more illumination than some of our other Scraplights expressions and the shape is very suitable over a desk, dining table or kitchen island. Hewn is handmade in Graypants' Seattle studio as well as in Amsterdam.

scraplights®

Hewn

With Hewn linear, Graypants means to add a tactile and creative addition to a mundane field of task lighting, offering a beautiful light for all kinds of spaces. Hewn reflects a texture created using a new cutting process where layers of the shade are cut parallel to the flutes of the cardboard versus the perpendicular cut lines of our other shapes. This cutting process was intentional allowing us to build something beautiful and textural while also being fully opaque.

scraplights®

Tilt Table and Floor Lamps

Each Tilt lamp features a sturdy steel powder-coated frame, textile wrapped cord, bottom felt pad, and durable rocker switch. Easily swappable and secured into place using two heavy-duty knurled thumbscrews, our signature recycled cardboard shades make these the perfect warm accent for that lonely table, dark corner, or blank space.

wick™

We no longer rely on candles to keep us out of the dark, but candlelight still fills our lives with light, setting the stage for countless warm dinners and glowing evenings. Wick is a call from our past to our future. It's the opportunity to mindfully light our experiences. Combining the romance of a candle with the utility of a flashlight, Wick is your candle companion, lighting memories and guiding your path.

levity

For the Levity series, we partnered with Netherlands-based Studio Truly Truly, a design studio who frame their work as a manifesto: Make things properly, honestly and artfully. Studio Truly Truly focuses on designing products that combine function with sensuality. Levity is a series of minimal and poetic flexible lights, combining a rigid metal frame with a draped textile shade.

Most of our standard products are now available as individual canopy arrangements. Custom configurations are available upon request. A standard product consists of a canopy with a net price of 790 euros and a price for the pendants (listed below as *pendants price) for which your normal trade discount applies. In short: *Pendants price - your trade discount on pendants price + canopy (790EUR) = buying price. The dimensions of the standard canopy are W59, L118 cm and comes in black or white.

loci™

(Available for trade only)

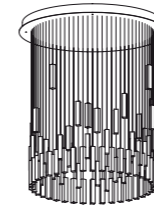

Loci is an innovative and highly customizable suspension light. The name, Latin in origin, translates to a particular position, point, or place, and refers to the series' innovative method of achieving hundreds or thousands of singular points of light in an installation.

Loci comes in five standard designs: Ring, Spiral Ring, Mobius, Rain and Wave, but any number of pendants can be used to create unique designs customized to fit your specifications. The individual pendants within each design are made of solid frosted diffusers and can also be specified in various shapes. When lit, the pendants emit a soft glow highlighting their respective designs in tandem with a powerful expression of the overall design of the installation.

Custom arrangements are available upon request.

Design	SKU	EAN	Size	Pendant Count
Ring Pendant Configuration	GP2012	8718531273177	Ø 91, H 100 (cm)	80
Spiral Ring Pendant Configuration	GP2013	8718531273184	Ø 91, H 200 (cm)	80
Mobius Pendant Configuration	GP2014	8718531273191	W 118, L 118, H 200 (cm)	118
Rain Pendant Configuration	GP2015	8718531273207	W 59, L 118, H 200 (cm)	75
Wave Pendant Configuration	GP2016	8718531273214	W 59, L 354, H 200 (cm)	120

120 cube pendants
2m drop

murmurations™

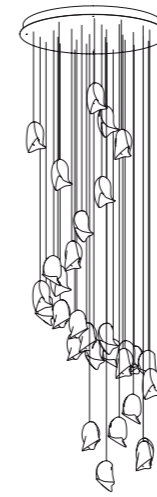

(Available for trade only)

Murmurations are custom installations inspired by a breathtaking natural phenomenon. Flocking is considered an emergent behavior arising from simple rules that are followed by individuals without any central coordination. By creating our own simple design rules, we are able to create dynamic light installations comprising of a single layered cardboard pendant.

Murmurations are available in single-canopy and multi-canopy arrangements. **Custom arrangements are available upon request.**

Design	SKU	EAN	Size	Pendant Count
Tornado Pendant Configuration	GP2017	8718531273221	Ø 91, H 300 (cm)	30

prop ceiling system™

(Available for trade only)

The Prop panel is a perforated steel unit, which can be combined in numerous combinations to create a wide variety of ceiling systems. The strength of the Prop panels lies in their ability to be endlessly combined into a Prop Ceiling System, accommodating integrated lighting and acoustical needs.

Pricing varies based on project. Contact us for more information.

wave panels

(Available for trade only)

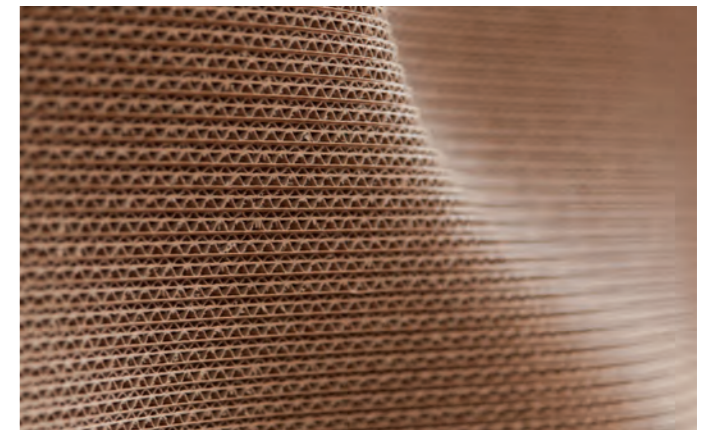

cloud installations

(Available for trade only)

In clouds, some see darkness. We see light. Hand-crafted from as many as 30,000 ping-pong balls, each cloud chandelier is as unique as the environment in which it hangs. With fully programmable LED color lights, they are luminous, supple and constantly in motion – just like an afternoon cloud that gently drifts through the day.

Pricing varies based on project. Contact us for more information.

Commercial and residential panel partitions should inhabit a space, not divide it. Responsibly crafted from recycled cardboard, Wave Panels re-imagine how we use space. With inherent acoustic properties and stunning visual effects, the multifunctional sculptural panels are custom-designed with varying levels of translucence, yielding privacy without isolation. Wave Panels are also fully compatible with standard ceiling systems, affording an elegant upgrade to acoustic ceiling tiles. Freestanding residential tri-fold room dividers are also available.

Pricing varies based on project. Contact us for more information.
