LAPIAZ TV

TV CABINET

Lapiaz TV cabinet takes exceptional craftsmanship and design to a new realm. Finding beauty in the most unexpected places, this contemporary design piece is inspired by authentic karst formations created by surface dissolution, freezing, or thawing of limestone or dolomite rocks. Its organic features are achieved through the manual fitting of polished brass, and a sharp finish in polished stainless steel that portrays a perfect mirror. It is composed by two modules that open to a distinct poplar root wood veneer interior, featuring different-shaped drawers and glass shelves. The hammered gold details and the mirrored façade conveys both dynamics and elegance, a beautiful duality between power and refinement to bring a new contemporary verve into interior design. A functional artwork piece born from cold and freshly cracked to showing off the world rich, golden details.
