

## LIUKU BASE

---

---

The Mater Liuku Base Pendant is designed by Finnish designer Maija Puoskari. It is crafted in solid, FSC certified linden wood and stripped of excessive decoration, leaving focus on the simple design. The LED light source is hidden in the drop - or ball-shaped - design, which is treated with a matt lacquer. The two shapes constitute the base of the Mater Liuku Pendant, with an additional glass shade. The minimalistic design means the Liuku Base is ideal as a single pendant, aligned or in decorative clusters for both residential and commercial decor.
