

Low Stool

Recycled aluminum

The Low Stool is designed by the Danish architect duo Space Copenhagen and is regarded as a *New Danish Classic*. With its organic yet minimalist style, this stool is suitable for both residential and commercial use. The Low Stool Collection is made from recycled aluminum waste, supporting several of UN's sustainable development goals. Durable for both private and public use.

Leather

Leather is a natural material. And at Mater, we believe it will only get more beautiful with age and daily usage. However, like all natural materials, it requires looking after to ensure its long-lasting appeal.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Aluminum

70% of our aluminum is made from recycled old pipes, tubing and other aluminum waste. It is melted and used in several of our sand-casted products. In this way we transform discarded scraps into beautiful design pieces.
