

# Ocean Bench

Made from discarded fishing nets & recycled plastic waste

The Ocean Bench is a part of the Ocean Collection, a reimagined outdoor series, originally designed in 1955 by some of the 20th century's most renowned Danish designers, Joergen and Nanna Ditzel. The design is reissued in ocean plastic waste to prevent pollution of the world's oceans. Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles.
