

MISSANA LAB

LAB.01

Alexis Christodoulou

MILOS

2021

Our first reference LAB.01 is an armchair called "Milos" created by the digital artist Alexis Christodoulou. Alexis has been inspired by the Cycladic architecture specific of the Greek islands and well-known for its simple and elegant shapes.

After several years of research and studies as a digital artist, creating amazing landscapes influenced by the Greek architecture, Alexis accepts Missana LAB challenge of going beyond the limits of the digital language to design his first handicraft product.
