

QUETZAL

Armchair

Marc

Venot

Quetzal surprises, attracts and traps, evoking on us the same magical feeling and the same admiration with which we watch the Quetzal bird taking off and flying into the sky in its natural habitat.

The color duality makes it an extremely versatile, visual & interactive design

14 overlapped bicolor pillows manage to create an amazing visual impact and provide the product with the unique feature of being able to change the main color of the armchair in the blink of an eye.
