

Random Solo,
Design by Chia-Ying Lee

Model Random Solo 28

Random Solo Five perfect spheres floating in the air like gentle glass bubbles. Random Solo revisits the concept of the Random suspension lamp by parting the original three-piece cluster and adding two new blown glass spheres.

The five sizes and seven different finishes available offer ample styling freedom, both as individually suspended light points and in lightweight and lively combinations on clusters. The fingerprint resistant frosted white finish magically changes the perception of the sphere and its volume, opening new opportunities for interior decoration, while the new *Glossy Bronze* finish is synonymous with alluring beauty, that inspires stability and infuses calmness to any living environments
