2024 - Part 3

**SANCAL** 

# Tab

**Crecen como setas.** Isaac Piñeiro nos propone unas simpáticas banquetas y mesitas cuya base está inspirada en los trobos, unas colmenas hechas con troncos de madera, muy típicas en el norte de la Península Ibérica.

**Tab** son 2 banquetas con diferente altura y 4 mesas. La base siempre es de chapa de castaño curvada; las tapas están disponibles en chapa de castaño o en un amplio abanico de lacados, colores sobrios para ambientes discretos y tonos vivos que contrastan con la madera.

**They grow like mushrooms.** **Tab** is an interesting set of stools and tables by **Isaac Piñeiro** inspired by “trobos”: a Spanish word that describes hives made from hollow logs, typical throughout the north of the Iberian Peninsula.

The **Tab** is a stool with 2 different heights, and 4 tables. The base is always a curved chestnut veneer and the tops are available in chestnut veneer or a in a wide range of shades: tenuous colours for discreet environments and bright colours which contrast with the wood.

Tab side tables D64X45 & D50X45

# Konoha

**Paisaje vegetal con algoritmo al fondo.** Del algoritmo de la doble espiral, por naturaleza, surge una forma única. **Toyo Ito** se inspira en esta particular forma para diseñar un mobiliario que facilite el encuentro entre la gente y permita usar los espacios libremente. El resultado son unos bancos de silueta vegetal, similares a los fragmentos de una planta, con los que podemos componer una hoja completa.

Combinando las diferentes piezas de la serie, obtenemos diferentes ritmos. Cambiando la posición u orientación de los bancos, podemos modificar el contexto y adaptarnos a las dimensiones de cualquier espacio. Para los acabados, apuesta por materiales nobles: lana, madera y acero con el fin de potenciar el componente orgánico del diseño. **Konoha** es una palabra japonesa que significa "hojas de árbol".

**A natural landscape.** From the algorithm of the double helix arises a unique form of Nature. **Toyo Ito** has been inspired by this particular shape to design furniture that facilitates connection among people and that allows free use of spaces. The result is a bench with a unique silhouette, similar to the fragments of a plant, with which we can compose a full leaf.

By combining the pieces of the series in different ways, we alter the rhythms. By changing the position or orientation of the benches, we can modify the context and adapt to the dimensions of any space. **Toyo Ito** uses natural materials: wool, wood and steel to enhance the organic component of the design. **Konoha** is a Japanese word that means "tree leaves".

Konoha setting

# Chat

**¡Sentémonos a charlar!** Chat es un conjunto de asientos auxiliares, muy práctico y polivalente, formado por 1 puf y 1 taburete.

Chat se puede solicitar en una extensa variedad de tejidos: lycra, algodón, lana, piel o piel sintética. También ofrece la posibilidad de seleccionar distinto color y/o tejido para tapas y bases. Al solicitar este tipo de combinaciones bi, es preciso especificar claramente la referencia de tejido requerida para tapa y base.

**Let's take a seat and chat!** Chat is a practical and versatile set of auxiliary seats formed of one pouf and one stool.

The model can be ordered in a wide variety of upholstery: lycra, cotton, wool, leather or synthetic leather. If you require different fabrics on the top and base please be careful to specify where each should be placed.

# Diwan

**Un lujo asiático a tu alcance.** El legado árabe de la ciudad de Valencia ha inspirado a **PerezOchando** para diseñar un **Diwan** contemporáneo. La colección incluye diván y chaise longue, además de bancos modulares y una original butaca.

Haciendo gala de la ligereza que caracteriza todas sus creaciones, **Claudia y Pedro** han reducido a la mínima expresión las sinuosas curvas de asientos y respaldos. Para las patas, de nuevo apuestan por un recurso elemental, cuya sencillez formal, lejos de restar carácter, aporta el toque de distinción. De madera natural o tintadas, para combinar o contrastar con el textil, las patas multiplican las opciones de personalización.

Los bancos, sueltos o unidos a modo de bancada, y el diván, tienen una altura de asiento mayor que las chaises longues y butacas, cuya sentada debe ser más relajada.

**Oriental luxury for modern life.** Valencia city's Arab heritage inspired **PerezOchando** to design a contemporary **Diwan**. The range includes a chaise longue, as well as modular benches and an original armchair.

**Claudia and Pedro** have reduced the sinuous curves of the seats and backs to their bare minimum, bringing an air of lightness to the design. The legs' formal simplicity provides a touch of distinction. Available in natural or stained wood, they can be combined or contrasted with the upholstery.

The benches can be used separately or joined to create long compositions. Designed for sitting, rather than lounging, they have a higher seat height than the divan. The chaise lounges and armchairs provide greater support for more relaxed seating.

# Elephant

**Tras la huella del paquidermo...** Isaac Piñeiro hace gala de su acertada visión para las piezas pequeñas, con una familia de pufs de formas muy básicas (cuadrados y rectángulos) y la peculiaridad de que todas sus esquinas han sido redondeadas.

La familia consta de 3 pufs: uno de 45x45, otro de 90x45 y un tercero de 90x45 con bandeja de madera. Divertidos y versátiles, estos encajan en cualquier lugar: como asiento a los pies de la cama, como banqueta en una cafetería chic o como pequeñas islas en una recepción.

**On the trail of a pachyderm...** Isaac Piñeiro surprises us with a fresh vision for small, yet essential pieces. The **Elephant** is a family of poufs with simple, geometric squares and rectangles which have had their edges rounded to give a slightly more welcoming feel.

This family comprises three poufs, one of 45x45 and another measuring 90x45 - which is also available with a wooden tray. Fun and versatile, they can fit into any setting: as a seat at the foot of a bed, a stool in a chic café or as small islands in a hotel reception.

# Perigallo

**Apego al terreno.** Perigallo se denomina así a un artilugio típico de la huerta levantina, similar una escalera de tres patas, que se usa para recolectar la cosecha.

El equipo de trabajo constituido por **Domínguez, García e Ibáñez** rescata esta tradición y la reinventa dotándola de nuevos usos. El **Perigallo** contemporáneo es un taburete plegable que también sirve como galán de noche.

**Love of the land.** The word **Perigallo** is taken from a local Spanish dialect. It is used to describe a three legged ladder used to harvest local fruit. **Domínguez, García & Ibáñez** borrowed this traditional idea and have given it a new use.

**Sanca's Perigallo** is a stool that can be folded away when not in use, making it ideal for hosts who suddenly find that they need more seating.

Perigallo stool

# Tartana

**Inspiración preindustrial. Producto postindustrial.** Isaac Piñeiro se remonta a una época preindustrial para crear un producto postindustrial. Según el diccionario de la RAE, una tartana es un “carruaje con cubierta abovedada y asientos laterales, por lo común de dos ruedas y con limonera”.

La **Tartana** contemporánea es una cúpula acústica, un producto pensado para resguardarnos y darnos la intimidad que añoramos cuando cohabitamos amplios espacios públicos.

Los materiales empleados son cálidos con el objetivo de incrementar la sensación de recogimiento. La estructura es de fresno y los textiles son de fieltro foamizado. La parte textil está disponible en las siguientes combinaciones de tejidos: sand, bloom, cobalto, fog, fire y lemon. Ambas caras son polivalentes por lo que es posible colocarlas hacia arriba o hacia abajo indistintamente.

La confección del textil en tres capas proporciona una fono-absorción óptima. La estructura de madera está disponible en todos los colores de nuestra carta de tintes para fresno.

**Pre-industrial inspiration. Post-industrial product.** Isaac Piñeiro has taken inspiration from a pre-industrial epoch for their post-industrial product. In Spanish, a “tartana” is defined as a carriage with a domed cover on two wheels. **Sancal's** modern-day **Tartana** is an acoustic dome, a totally new product, designed to protect us and provide us with the privacy that we yearn for in open spaces.

The warm materials used help to create a cosy atmosphere: the structure is ash, and the fabric is a foam laminated. The textile part is available in the following fabric combinations: sand, bloom, cobalto, fog, fire and lemon. Both sides have the same acoustic properties and can therefore be placed either way round to achieve different colour coordinations.

The construction of the fabric in three layers creates the optimum phono-absorbent effect. The ash wood structure can be stained any colour in the relevant section of our chart.

# Lapso

**No molestar. Estoy en mi momento Lapso.** Lapso es un producto difícil de explicar, pero fácil de entender, que comprenderás al instante cuando lo pruebes. Con él sus diseñadores ganaron el premio Hermès al mejor diseño de autor en 2014. Años después **Sancal** rescata esta singular hamaca vertical para deleite de sus clientes.

Por los materiales con los que está construida, la “capota” es fonoabsorbente y, una vez dentro de ella, contribuye a mejorar la sensación acústica gracias a su amplia curvatura. Ello induce a bajar la voz cuando hablamos por teléfono desde el interior de esta confortable cabina.

Mejorar la sensación acústica de los espacios públicos es, sin duda, una importante función. Sin embargo, **Lapso** añade un nuevo tipo de confort en entornos bulliciosos ya que, como hamaca vertical, nos da la posibilidad de disfrutar de un momento de descanso activo en un aeropuerto o hacer una pausa para reflexionar tranquilamente en mitad de la oficina.

**Do not disturb. I'm taking a Lapso.** Difficult to explain but easy to understand once you try it, **Lapso** is a new addition to **Sancal's** catalogue. Lesur & Venot's creation was recognised with an Hermès award for the Best Author design in 2014. Years later, **Sancal** rescued this unique vertical hammock, ideal for crowded public spaces, enabling individuals to lean back for a moment's privacy.

The “hood” contributes to improving acoustics thanks to its curved upholstered panels. The shape reflects sound back to the person making a call, causing them to naturally lower their voice, while the padded upholstery helps to dampen the room's reverberation.

Improving acoustics in public spaces is undoubtedly an important function. However, **Lapso** adds one more unique feature. It is also a vertical hammock where people can lean back and take some time out during a trip or reflect quietly in the middle of a bustling office.

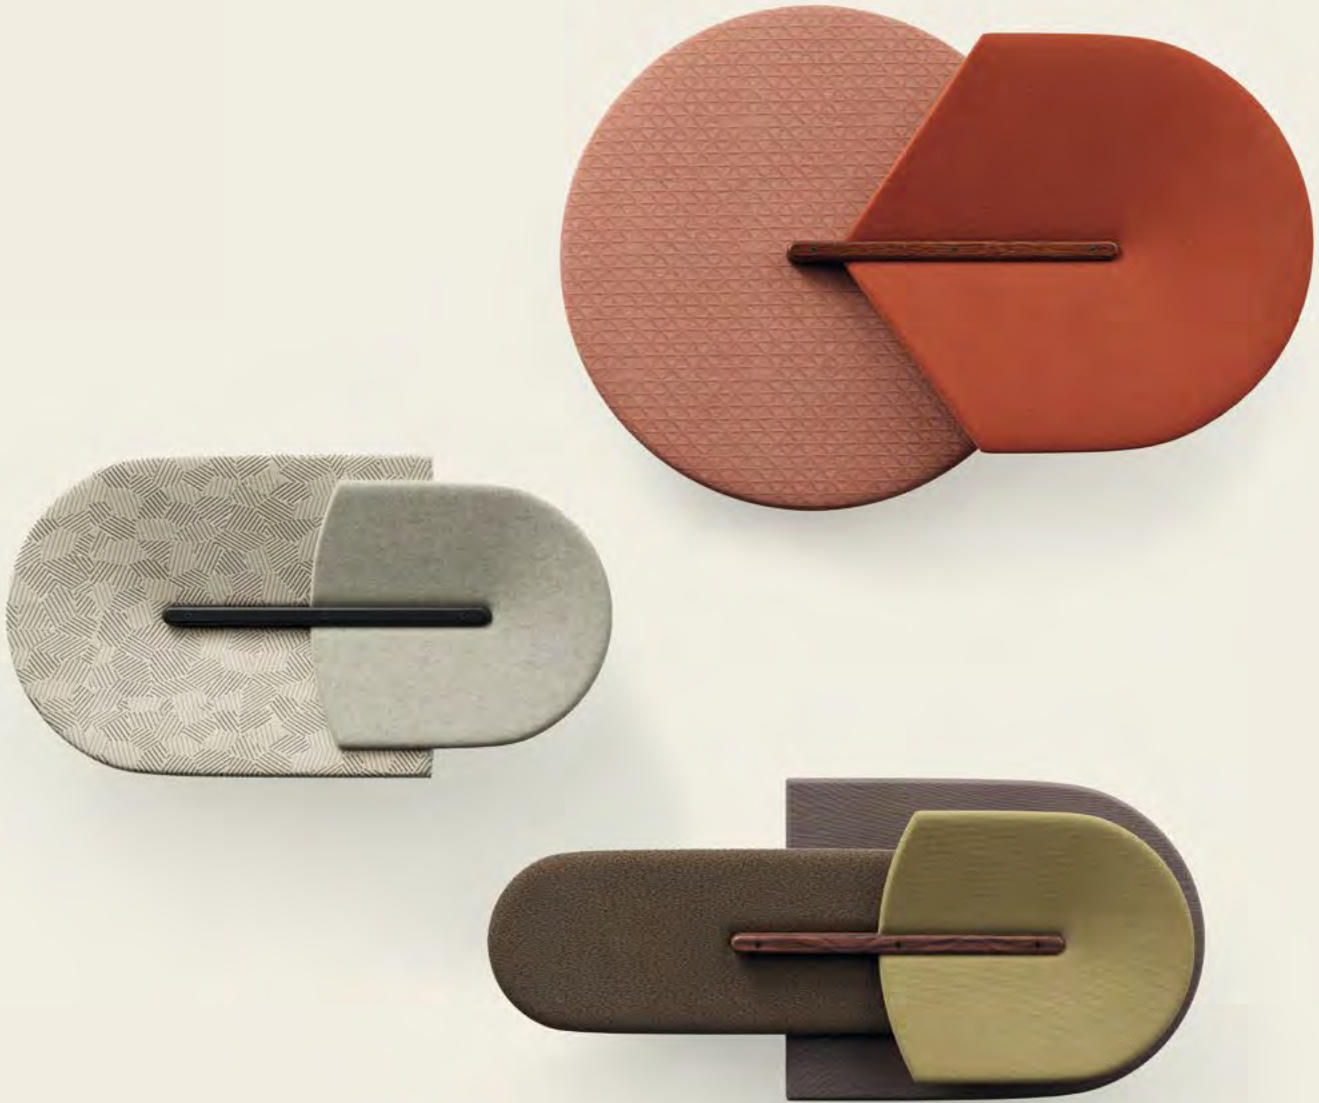

Lapso vertical hammock

# Beetle

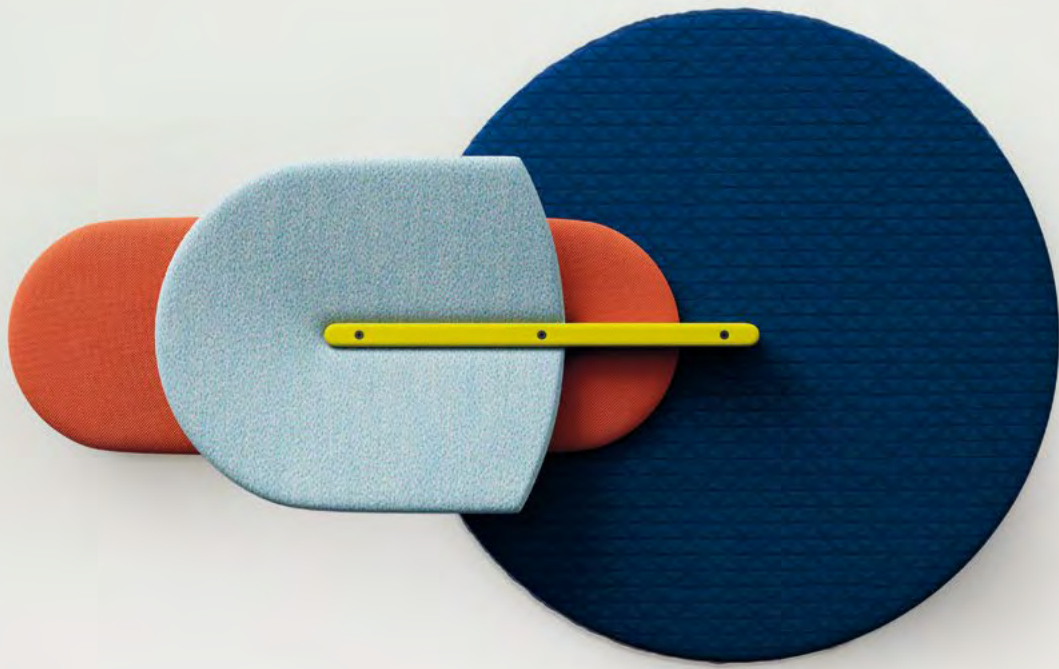

**Un paisaje sonoro esculpido por insectos...** Tras un paseo por el museo de ciencias naturales, **Mut** se inspira en las salas de entomología y sus espeluznantes expositores de insectos, para crear los bichos más bellos e inofensivos jamás vistos.

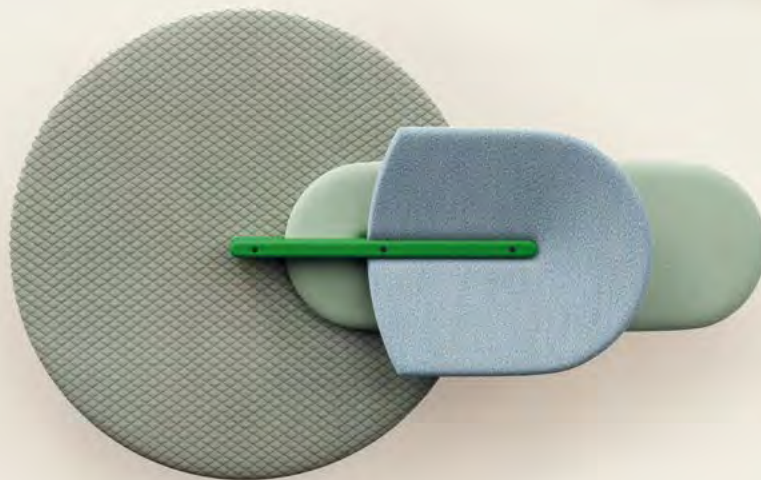

Este proyecto parte de la necesidad de resolver el incómodo problema del ruido ambiente y hacerlo sin que lo parezca; superando el difícil equilibrio entre funcionalidad y decoración. Los paneles fonoabsorbentes **Beetle** son esculturas textiles que sobredimensionan el arquetipo de un escarabajo.

**Soundscapes sculpted by insects...** After meandering through the Natural Science Museum, **Mut** became inspired by the exhibition rooms dedicated to entomology and their terrifying showcases of insects. Their own bug, however, would be beautiful and harmless.

This project starts with the need to resolve the uncomfortable problem of background noise, overcoming the difficult balance between sound dissipation and decoration. The sound-absorbing panels are textile sculptures that oversize the perfect specimen of a beetle.

# Tapís

**Separar para unir.** Tapís es un sistema de paneles separadores para crear y definir pequeños ambientes en entornos diáfanos. Una forma funcional y dinámica de amueblar y sectorizar amplias salas en entornos como hostelería, oficinas, salas de espera o halls. Con un simple cambio en la disposición de los paneles se pueden crear nuevas distribuciones en un mismo espacio, manteniendo la coherencia general de la estancia.

Las composiciones con varios paneles tienen la ventaja de poder orientar y modificar los ángulos de forma gradual, según las necesidades de cada momento. Se pueden realizar uniones longitudinales a partir de 2 paneles, con forma de T a partir de 3 y con forma de X a partir de 4 paneles.

Pero las opciones textiles de Tapís van más allá, pues a parte de poder usar un único tejido por ambas caras, existen otras alternativas para combinar dos textiles en un mismo panel. El tapizado con costuras simétricas permite usar un tejido para cada cara y su unión coincide con los laterales del panel, mientras que en el tapizado con costuras asimétricas la combinación de tejidos queda a la vista por ambas caras y las costuras se conciben, además, como un detalle decorativo.

**Separate to connect.** Tapís is a divider panel system to create and define small environments in open spaces. A functional, aesthetic and dynamic way of furnishing and creating new spaces within large rooms without resorting to construction works. With a simple change in the arrangement of the panels, new distributions can be created in the same space, adapting to the real needs of each moment while preserving the original interior design concept.

Tapís enables two panels or more to be joined-together to make a wall. A T-shaped divider can be constructed from three panels, and an X-shape by adding a fourth. Pivoting the angle of each panel adds another dimension of adaptability.

Tapís' symmetric upholstery allows the use of a different fabric for each face of the panels with the seams discreetly running down the sides of the supporting poles, while the asymmetric upholstery version combines two fabrics on the faces themselves, featuring the seams as a decorative detail.

# Estante

**¡Tela, metal y madera!** Estante es tan versátil y alegre como lo es **Juan Ibáñez Lax**, autor este mueble modular con propiedades fonoabsorbentes.

Los estantes de aluminio son el esqueleto, la pieza central entorno a la cual gira todo. A ellos se añaden las patas y pilastras de roble que los sustentan. Pero sin duda, la máxima distinción viene dada por las piezas textiles que los engalanan.

Los módulos y puertas tapizadas revisten los estantes e incorporan un diseño fonoabsorbente, trascendiendo así la función decorativa. Las puertas favorecen el contraste de materiales. Las puertas de aluminio han sido perforadas para generar una atractiva textura y no obstaculizar la fono-absorción.

**Estante** es tan versátil que amplía el concepto de almacenaje auxiliar. Dependiendo de cómo sea configurado hace las veces de aparador, recibidor, librería, mueble de tv y hasta de separador de ambientes. La posibilidad de incorporar ruedas incrementa su funcionalidad.

**Oak, fabric and aluminium play quietly together!** Estante is as versatile and cheerful as **Juan Ibáñez Lax**, author of this modular piece of furniture with acoustic properties.

The aluminium shelves provide the platform upon which everything else is built. Oak pillars and feet screw into place to create the structure which is then adorned by perforated aluminium or upholstered doors and panels.

These textile elements dress the **Estante** and add a sound-absorbing function, going beyond mere decoration. The perforated aluminium doors present an attractive contrast while minimising acoustic interference.

The furniture's highly configurable design transcends its storage function as it can be used as sideboard, bookcase, television stand or a divider. Add wheels to create a trolley or invent your own use case!

# Bang!

**Impacto multicolor.** Combinaciones de tonos a priori imposibles junto a otras perfectamente coordinadas han sido seleccionadas con maestría. Con la serie de cojines **Bang!**, **Elena** pretende generar una explosión de color que deslumbré a nuestras retinas.

El diseño clásico de los delicados ribetes de pasamanería refuerza la ironía cromática. Los colores disponibles son: crema-manzana, yema-klein, blanco-musgo, limón-tabaco, caqui-purpura, toffee-turquesa, celeste, coral y perla.

**An explosion of colour.** It takes an expert to present seemingly impossible colour combinations with others that have been perfectly coordinated. **Elena's** studies in fine art have enabled her to create the **Bang!** cushions with a dazzling use of colour.

Classic trimmings adorn the edges of the piece, continuing the theme of contrasts, this time set against the avant-garde patterns themselves. Available in the following colour combinations: cream-apple, yolk-klein, snow-grass, lemon-earth, khaki-purple, toffee-turquoise, sky blue, coral or pearl.

# Mandarina

**¡Fina corsetería!** El proyecto **Mandarina** de **Elena Castaño-López** toma prestadas técnicas de costura propias de la corsetería para dar lugar a una detallista colección de cojines de formas redondeadas.

**Delicate lingerie!** The **Mandarina** cushions by **Elena Castaño-López** borrows sewing techniques from the lingerie trade for a detailed collection of rounded cushions.

# Line

**Divertidas píldoras de color.** Funcionales y divertidos. Partiendo de **Loop** y **Link** como inspiración, **Raw Color** presenta una alegre familia de cojines explorando de nuevo el cilindro como elemento formal. El color es también un elemento distintivo, jugando con la amplia variedad de colores de **Planum** (un textil diseñado también por Raw para la tejeduría danesa Kvadrat). Unas combinaciones son muy atrevidas y otras más calmadas, pero todas igualmente inspiradoras, ya que nadie mezcla los colores con tanta maestría como **Daniera** y **Christoph**.

**Incapsulating colour.** **Raw Color** draws inspiration from the seating products they have designed for Sancal, **Loop** and **Link**, to create a cheerful family of over-sized cushions that continue to explore the shape of the cylinder. Colour, as always, is a distinctive feature of their designs. Taking **Planum**, a textile also designed by Raw for the Danish weaving company Kvadrat, they made a careful selection from its ample palette for each variant. Some combinations are bold, others quieter, but equally inspiring, as no one mixes colours as masterfully as **Daniera** and **Christoph**.

# C1-C4

**Arte para el sofá.** Estos cojines de **Elena Castaño-López** son quizás su propuesta más artística. Inspirada en precursores del arte abstracto como Malévich y Mondrian, ilustra 4 estampados textiles con nombre racionalista.

Sin embargo, fiel a su enfoque ecléctico, da una vuelta de tuerca a esta aparente sencillez y viste la cara b con materiales tan excesivos y contradictorios como la piel metalizada y la lana aborregada.

**Sofa art.** The new cushions by **Elena Castaño-López** are probably her most artistic product for **Sancal** to date. Inspiration has been drawn from the pioneers of abstract art like Malévich and Mondrian, with four prints with rationalist names.

The backs of the cushions contrast strongly with metalized leather or long haired wool.

# Float

**Esculturas de pared.** These sculptural hangers have been designed by **Karim Rashid** as one of the most distinctive items of the **Float** collection. They can be placed on the back of the sofa as well as a wall. Thanks to laborious handcrafted lathe work, the oak wood acquires suggestive rounded shapes.

**Wall sculptures.** These sculptural hangers have been designed by **Karim Rashid** as one of the most distinctive items of the **Float** collection. They can be placed on the back of the sofa as well as a wall. Thanks to laborious handcrafted lathe work, the oak wood acquires suggestive rounded shapes.

# Pauli

**Como las piezas de un mecano.** Un delicado trabajo de marquetería para crear un dinámico perchero de pared inspirado en las piezas de un mecano. **Pauli** es interactivo, su forma será una u otra según el colgador que utilicemos. La estructura es de roble natural.

**Like Meccano pieces.** A delicate marquetry work to create a smooth coat hanger inspired by the pieces of a Meccano game. **Pauli** is interactive: its shape will be variable, depending on which hanger we use. The structure is made of natural oak.

# Cosas

Visit Cosas Shop

[sancal.com/cosas](http://sancal.com/cosas)

**Cosas** es una miscelánea de objetos difícil de delimitar. Lo que sí está claro es que se trata de una línea de productos que representan el lifestyle de la marca. Para **Sancal** la creatividad se expresa a través del diseño, pero también del humor y del arte, así que **Cosas** tiene un poco de estos tres ingredientes.

**Cosas**, the Spanish word for “things”, is a smorgasbord of objects that defies definition, the physical representation of a **Sancal** lifestyle. For us, creativity can be expressed through design, but also through humour and art, so **Cosas** is composed of these three ingredients.
