

SCALA

FABR

Description

Inspired by the lavish 18th century opera house in Milan, the Scala wall light is attributed to the neo classical architecture in its grandeur of scale and simplicity of form. Defined by a series of opal glass shades and surrounded by a melange of coloured terrazzo, this is a true statement fixture that works individually or as a pair.

Category

Wall light

Product Code

SCA002

Materials

Terrazzo, Aluminium, Opal glass

Compliance
