

Sky-Fall, Design by Studio Italia Design

Model Sky-Fall large

In Sky-Fall, the traditional glass processing techniques embrace the most advanced LED technologies. The shape of Sky-Fall captures the imagination in its reminiscence of ancient decanters in precious blown glass. Its function amazes thanks to the innovative double 10 W LED source that diffuses direct and indirect light. Available in two sizes and in three finishes, three finishes, and now also in a 3000K light colour temperature version, Sky-Fall decorates both when it is on and when it is off.
