Hanging weight: 1.8 Kg

SKU: RO-07
8719324853064

Custom sizes are available upon request

Handmade in Holland

Description:
The Roest collection by VanJoost bends the norm with its unpretentious simplicity, in which the design has met no equal. Nature's reaction between steel, oxygen, water and time. Handmade in Holland, Roest presents natural colors in unusual settings. After the natural oxidation process, all items are treated to stop further rusting.

Finish:
Nature's reaction between steel, oxygen, water and time.

Designer:
VanJoost

Roest products are naturally rusted and although they are thoroughly treated, Roest lighting can be scratched by sharp objects, leaving an orange marking. When this occurs, polish the scratch with Linseed oil and a cloth.

Roest lighting can leave stains when it is rubbed against other materials like fabrics, wood and paper. Please be careful when installing your Roest products.
