TRIBU BENCH

Inspired by old tribal sculptures, the Tribu collection is made of a fiber concrete base with a soft cushion on top. Characterized by a surface of architectural concrete lamellas, Tribu emphasizes the fine balance between sharp architectural lines and a somewhat softer curve of the upholstery seat.

The Tribu collection comprises a bench and stool cast in lightweight fiber concrete, creating a unique surface texture and increasing overall mobility. Each piece is hand painted to create a textured unique surface.
